## Thornburg Global Investment plc

### General Information

Thornburg Global Investment plc (the “Company”) is structured as an open-ended umbrella investment company with variable capital, incorporated under the laws of Ireland on 26 August 2011 as a public limited company pursuant to the Companies Act, 2014, as amended, with registration number 502828. The Company has been authorised by the Central Bank of Ireland (the “Central Bank”) as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations, 2019 (the “Central Bank UCITS Regulations”). The Company commenced operations on 30 March 2012.

The Company is organised in the form of an umbrella fund with six active sub-funds at 30 September 2025, Thornburg International Equity Fund, Thornburg Global Opportunities Fund, Thornburg Equity Income Builder Fund, Thornburg Global Growth Equity Fund, Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund (each a “Fund”, collectively the “Funds”). The Company has segregated liability between its Funds and accordingly any liability incurred on behalf of or attributable to any Fund shall be discharged solely out of the assets of that Fund. The Company had in issue the following share classes in each of the Funds at the financial year end:

Fund	Share Class	Currency	Original Launch Date	Launch Price
Thornburg International Equity Fund	Class AUA	US\$	30 March 2012	US\$ 10.00

\*The name change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

\*\*Share Class fully redeemed on 30 May 2025.

### Thornburg International Equity Fund

The investment objective of the Fund is to provide investors with long-term capital appreciation by investing in equity and, to a lesser extent, debt securities. The secondary, non-fundamental objective of the Fund is to seek some current income.

## **Thornburg Global Investment plc**

### **General Information (continued)**

---

#### **Thornburg International Equity Fund (continued)**

Under normal circumstances, the Fund will invest at least 90% of its assets (excluding cash and money market instruments) in equity securities issued by issuers domiciled outside the US. Under normal circumstances the Fund will invest a maximum of 10% of net asset value (excluding cash and money market instruments) in securities issued by US domiciled entities at any time, provided however that underlying funds, including ETFs, with a specific non-US geographical focus shall not be considered as US entities for the purpose of this restriction regardless of their domicile. Any such underlying fund shall have an equity focus. The Fund is structured as a long-only portfolio. The Fund may invest in developing countries and investments in such emerging markets may exceed 20% of net asset value.

The Fund may invest in other underlying funds (including ETFs) but such investments will not exceed 10% of net asset value and any such investments will only be made where the underlying fund is itself subject to a limit of 10% maximum investment in other collective investment schemes.

#### **Thornburg Global Opportunities Fund**

The investment objective of the Fund is to provide investors with long-term capital appreciation by investing in equity and debt securities of all types from issuers around the world.

The Fund pursues its investment goals by investing primarily in a broad range of equity securities, including common and preferred stocks, which the Investment Manager believes may assist the Fund in pursuing its goals, including those of smaller companies with market capitalizations of less than \$500 million.

The Fund may also invest in a range of debt obligations, including corporate and government bonds. The Fund may purchase debt obligations of any maturity, fixed or floating rate and of any rating quality, or which may be unrated. However, investments in unrated securities or sub-investment grade securities, as rated by Moody's or any other U.S. accredited rating agency, will not exceed 30% of net asset value. The Fund also may invest in debt obligations which have a combination of equity and debt characteristics, such as convertible bonds or are in the form of participatory notes. The Fund is structured as a long-only portfolio.

It is anticipated that the Fund will typically comprise around 90% equity and up to 10% debt securities. Debt obligations may be considered for investment if the Investment Manager believes them to be more attractive than equity alternatives, due to, for example, estimated risk, volatility, yield or any other reason at its discretion, but will typically amount to less than 10% of net asset value.

The Fund may invest in other underlying funds (including ETFs) but such investments will not exceed 10% of net asset value and any such investments will only be made where the underlying fund is itself subject to a limit of 10% maximum investment in other collective investment schemes.

#### **Thornburg Equity Income Builder Fund**

The Fund's investment objective is to provide long-term income growth and capital appreciation.

The Fund pursues its investment goals primarily by investing in a broad range of income producing securities, including stocks and bonds, as described below. The Fund will under normal conditions invest at least 80% of its assets in income-producing common or preferred stocks. The Fund may invest in any stock, ETF or other equity security which the Investment Manager believes may assist the Fund in pursuing its investment goals (including smaller companies with market capitalization of less than \$500 million and companies in developing countries) and also including preferred stock, publicly traded real estate investment trusts, other equity trusts and partnership interests. The Fund expects that equity investments in the Fund's portfolio normally will be weighted in favour of companies which pay dividends or other current income.

The Fund may invest in debt obligations of any kind, including corporate bonds and other obligations, mortgage and other asset-backed securities and government obligations. The Fund may purchase debt obligations of any maturity and of any rating quality or which may be unrated. However, investments in debt obligations will not exceed 20% of net asset value. The Fund may also invest in debt obligations which have a combination of equity and debt characteristics, such as convertible bonds or are in the form of participatory notes.

The Fund may invest a significant portion of its assets in securities of issuers domiciled in developed and developing countries. Investments in emerging markets may exceed 20% of net asset value.

The Fund may invest in other underlying funds (including ETFs) but such investments will not exceed 10% of net asset value and any such investments will only be made where the underlying fund is itself subject to a limit of 10% maximum investment in other collective investment schemes.

## **Thornburg Global Investment plc**

### **General Information (continued)**

---

#### **Thornburg Equity Income Builder Fund (continued)**

The name and investment strategy change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

#### **Thornburg Global Growth Equity Fund**

The Fund's investment objective is long-term capital appreciation by investing primarily in a concentrated, unconstrained global equity portfolio.

The Fund will seek to achieve its investment objective by investing primarily in equity and equity related securities located around the world, including developing countries, emerging market countries and the United States.

The Fund has no limitation on the capitalization size of the companies in which it invests, the industry focus of companies invested in nor on its ability to invest in securities issued from any country. As such, the Fund will invest in various countries and various industries.

The Fund may invest in other underlying funds (including ETFs) but such investments will not exceed 10% of net asset value and any such investments will only be made where the underlying fund is itself subject to a limit of 10% maximum investment in other collective investment schemes.

#### **Thornburg Limited Term Income Fund**

The investment objective of the Fund is to provide as high a level of current income as possible while at the same time seeking to preserve capital.

The Fund invests at least 65% of its net assets in (i) obligations of the U.S. government, its agencies and instrumentalities, (ii) debt obligations rated at the time of purchase in one of the three highest ratings of Standard & Poor's Corporation (AAA, AA or A) or Moody's Investors Services, Inc. (Aaa, Aa or A) or if no credit rating is available, judged to be of comparable quality by the Investment Manager, and (iii) cash and money market instruments.

The Fund may also invest up to 35% of its net assets in debt obligations rated BBB by Standard & Poor's or Baa by Moody's or of equivalent quality as determined by the Investment Manager when the Investment Manager believes these investments are consistent with the Fund's objectives but will not invest in any securities rated lower than this at the time of purchase.

The Fund also attempts to reduce changes in its Share price through credit analysis and selection of individual securities as well as through diversification of its portfolio.

The Fund may invest in other underlying funds (including ETFs) but such investments will not exceed 10% of net asset value and any such investments will only be made where the underlying fund is itself subject to a limit of 10% maximum investment in other collective investment schemes.

#### **Thornburg Strategic Income Fund**

The Fund's investment objective is to seek a high level of current income. The Fund may also seek long-term capital appreciation.

The Fund principally pursues its investment goals by investing in a broad range of income-producing investments from throughout the world, as detailed below but comprised primarily of debt obligations. Such investments may also include income-producing stocks. The Fund expects, under normal conditions, to invest a majority of its assets in the debt obligations, but the relative proportions of the Fund's investments in debt obligations and in income producing stocks can be expected to vary over time. The Fund may invest in any stock or other equity security which the Investment Manager believes may assist the Fund in pursuing its investment goals, including primarily income producing common and preferred stocks issued by U.S. and non-U.S. companies of any size (including smaller companies with market capitalizations of less than \$500 million, and companies in developing countries), and also including publicly traded real estate investment trusts and other equity trusts and partnership interests.

The Fund also may invest in derivative instruments to the extent the Investment Manager believes such investments may assist the Fund in pursuing its investment goal.

See Investment Manager's reports beginning on page 10 of this report for a discussion of factors affecting each Fund's performance for the reporting period ended 30 September 2025.

## Thornburg Global Investment plc

### Directors' Report

---

The Board of Directors (the "Directors") present, herewith, their annual report and audited financial statements for Thornburg Global Investment plc (the "Company") for the financial year ended 30 September 2025.

The Company is organised in the form of an umbrella fund with segregated liability between funds, with six active sub-funds, Thornburg International Equity Fund, Thornburg Global Opportunities Fund, Thornburg Equity Income Builder Fund, Thornburg Global Growth Equity Fund, Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund (each a "Fund", collectively the "Funds") in existence at 30 September 2025.

#### Statement of Directors' responsibilities

The Directors are responsible for preparing the Directors' report, the annual report and the audited financial statements in accordance with applicable law and regulations.

Irish company law requires the Directors to prepare financial statements for the Company for each financial year. Under the law, the Directors have prepared the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union and applicable law.

Under Irish law the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the Company's assets, liabilities and financial position as at the end of the financial year and of profit or loss of the Company for the financial year.

In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with IFRS as adopted by the European Union and ensure that they contain the other information required by the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for ensuring that the Company keeps adequate accounting records that are sufficient to correctly record and explain the transactions of the Company, disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements are prepared in accordance with IFRS as adopted by the European Union and comply with Irish statute comprising: the Companies Act 2014, the UCITS Regulations and the Central Bank UCITS Regulations and enable those financial statements to be audited. They are also responsible for safeguarding the assets of the Company. In carrying out this duty, the Company has delegated custody of the Company's assets to the State Street Custodial Services (Ireland) Limited, (the "Depositary"). The Directors have a responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The financial statements of Thornburg Investment Management, Inc. (the "Investment Manager") are available from the Thornburg Investment Management, Inc. website. The maintenance and integrity of the Thornburg Investment Management, Inc. and FundInfo.com websites are the responsibility of the Investment Manager.

Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

#### Directors' Compliance Statement

As required by Section 225(2) of the Companies Act 2014, the Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

## Thornburg Global Investment plc

### Directors' Report (continued)

---

#### Accounting Records

The Directors are responsible for ensuring that adequate accounting records, as outlined in Section 281 to 285 of the Companies Act 2014, are kept by the Company. To achieve this, the Directors have appointed appropriate accounting personnel in order to ensure that those requirements are complied with. Those books and accounting records are maintained at the office of State Street Fund Services (Ireland) Limited at 78 Sir John Rogerson's Quay, Dublin 2, D02 HD32 Ireland.

#### Directors

Directors in office at the date of this report and throughout the financial year are listed on page 1 and below. Details of Directors' fees and expenses are given in Note 10. The Directors who held office during the financial year ended 30 September 2025 were:

Nimish Bhatt – appointed 15 February 2017  
Curtis Holloway – appointed 10 December 2019, resigned 29 May 2025  
Adrian Waters - appointed 1 January 2024  
Eve Finn - appointed 31 March 2024  
Jonathan Schuman - appointed 29 May 2025

#### Directors' and Company Secretary's interests in shares and contracts

There are 2 non-participating shares currently in issue, 1 each held by Thornburg Investment Management, Inc. and Thornburg Securities LLC. At 30 September 2025, none of the Directors held any beneficial interest in the shares of the Company.

#### Employees

The Company had no employees during the financial year ended 30 September 2025 or during the previous financial year.

#### Transactions involving Related Parties

Except as noted in Note 14, there are no contracts or arrangements of any significance in relation to the business of the Company in which the Directors or Company Secretary had any interest as defined in the Companies Act 2014 at any time during the financial year ended 30 September 2025.

#### Review of business activities and future developments

The change in the net asset value of the Funds for the financial year, which the Directors believe is a key indicator as to the performance of the Company, as well as a detailed review of the business and future developments, is given in the relevant Investment Manager's Report on pages 10 to 15.

#### Going Concern

The financial statements have been prepared on a going concern basis. The Directors are of the view that the Funds can continue in operational existence for twelve months from the date of approval of these financial statements ("the period of assessment"). The Directors anticipate the financial assets will continue to generate enough cash flows on an ongoing basis to meet each Fund's liabilities as they fall due.

#### Risk management objectives and policies

Investment in a Fund of the Company carries with it a degree of risk including, but not limited to, the risks referred to in Note 12 of these financial statements.

#### Results for the financial year and state of affairs as at 30 September 2025

The Statement of Financial Position and the Statement of Comprehensive Income of the Company are set out on pages 19 and 21, respectively.

#### Dividends

Distributing classes for Thornburg Equity Income Builder Fund will normally declare dividends on a quarterly basis. Distributing classes for Thornburg Limited Term Income Fund and Distributing classes for Thornburg Strategic Income Fund will normally declare dividends on a monthly basis. The details of dividends declared are presented in Note 11.

#### Events during the financial year

See Note 18 of these financial statements.

#### Events since the financial year end

See Note 19 of these financial statements.

**Directors' Report (continued)**

---

**Corporate governance statement**

The Board of Directors have assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by Irish Funds ("IF") in December 2011 (the "IF Code"). The Board has adopted all corporate governance practices and procedures in the IF Code for the financial year ended 30 September 2025.

**Connected Persons**

Regulation 43 of the Central Bank UCITS Regulations "Restrictions of transactions with connected persons" states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the Shareholders of the UCITS". As required under Regulation 43 of the Central Bank UCITS Regulations, the Directors are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

**Relevant Audit Information Statement**

The Directors in office at the date of this report have each confirmed that:

- as far as they are aware, there is no relevant audit information of which the Company's auditor is unaware; and
- they have taken all the steps that he/she ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

**Audit committee**

The Board of Directors decided it was not necessary to constitute an audit committee given the frequency of the meetings of the Board of Directors throughout the financial year and given the size of the Board of Directors and the nature, scale and complexity of the Company and its activities.

**Independent Auditors**

The Independent Auditors, PricewaterhouseCoopers, have indicated their willingness to continue in office in accordance with Section 383(2) of the Companies Act 2014.

**Remuneration**

In line with the requirements of the UCITS Regulations, the Company is required to adopt a remuneration policy. The remuneration policy is designed to ensure that any relevant conflicts of interest can be managed appropriately at all times and that the remuneration of senior staff is in line with the risk policies and objectives of the Company. The Company's remuneration policy applies to those categories of identified staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls into the remuneration bracket of senior management and risk takers, whose professional activities have a material impact on the risk profiles of the Company. The Company applies its remuneration policy and practices in a way and to the extent that is proportionate to its size, its internal organisation and the nature, scope and complexity of its activities. The Directors of the Company receive fixed remuneration in respect of their services which is set at a level determined by the Board as a whole and which is not performance related.

None of the Directors are currently in receipt of variable remuneration in respect of their services as Directors of the Company and none of the Directors are currently in receipt of a pension from the Company. As at 30 September 2025, the Company did not have any employees and the Company's remuneration policy applied only to members of the Company's management body (i.e., the Board of Directors).

The Investment Manager's staff members who can exert a material influence on the risk profile of the Company i.e. the co-lead portfolio managers for each Fund of the Company, as designated by the Investment Manager from time to time (the "Identified Staff") receive a fixed base salary, a benefits package and an annual discretionary bonus.

**Thornburg Global Investment plc**

**Directors' Report (continued)**

---

**Remuneration (continued)**

The Investment Manager's pay to Identified Staff relates to all funds which the Identified Staff currently manage. The assets under management of the Investment Manager, inclusive of those under management of the Identified Staff, as at 30 September 2025 was \$51.2 billion of which the Company represents \$412 million or 0.80% (30 September 2024: \$45.6 billion of which the Company represented \$289 million or 0.63%) of total assets under management.

**Report of the Depositary to the Shareholders**

---

We have enquired into the conduct of Thornburg Global Investment plc (the “Company”) for the financial year from 1 October 2024 to 30 September 2025, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (‘the UCITS Regulations’), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

**Responsibilities of the Depositary**

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company’s constitution (the “Constitution”) and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

**Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations and
- (ii) otherwise in accordance with the Company’s constitutional documentation and the appropriate regulations.

**Opinion**

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (‘the Central Bank UCITS Regulations’); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

5 December 2025

**Thornburg Global Investment plc**  
**Investment Manager's Report**  
**Thornburg International Equity Fund**

---

**Investment Goal and Fund Overview**

The Fund seeks long-term capital appreciation by investing in equity and, to a lesser extent, debt securities of all types. The secondary, non-fundamental goal of the Fund is to seek some current income.

The Fund seeks to achieve its objective through investing (under normal market conditions) at least 90% of its NAV (excluding cash and cash-like instruments) in non-U.S. equities. The Fund may invest in debt securities where they could be more beneficial to the Fund's objective than equities but this will typically be less than 10% of NAV. Equities are selected on a value basis using fundamental research. The portfolio is diversified to include basic value stocks, but also includes stocks of companies with consistent earnings characteristics and those of emerging franchises, when these issues are value priced.

**Performance drivers and detractors for the reporting period ended 30 September 2025**

- For the one-year period ended 30 September 2025, Thornburg International Equity Fund (I shares, Accumulating) returned 20.72% outperforming the MSCI All Country World ex-USA Net Total Return USD Index (the "Index"), which returned 16.45%.
- During the year, non-U.S. equities have posted strong returns, about matching their U.S. counterparts, even as U.S. mega-cap and AI beneficiaries have continued to lead the market.
- Stock selection was the main contributor to the Fund's outperformance relative to its benchmark, consistent with the Fund's bottom-up investment approach. Sector allocation detracted, but selection and currency effects together produced the relative outperformance. The Fund's cash allocation was a drag on performance.
- Within Industrials and Utilities, stock selection bolstered relative returns. Additionally, stock selection in the Euro Zone and a zero-weight in India also drove positive relative performance. Stock selection within Materials hampered relative returns.

**Thornburg Global Investment plc**  
**Investment Manager's Report (continued)**  
**Thornburg Global Opportunities Fund**

---

**Investment Goal and Fund Overview**

The investment objective of the Fund is to provide investors with long-term capital appreciation by investing in equity and debt securities of all types from issuers around the world.

The Fund pursues its investment goals by investing primarily in a broad range of equity securities, including common and preferred stocks, which the Investment Manager believes may assist the Fund in pursuing its goals, including those of smaller companies with market capitalizations of less than USD 500 million.

**Performance drivers and detractors for the reporting period ended 30 September 2025**

- For the one-year period ended 30 September 2025, Thornburg Global Opportunities Fund (I shares, Accumulating) returned 24.69% outperforming the MSCI All Country World Net Total Return USD Index (the "Index"), which returned 17.27%.
- During the year, major world events included the ongoing developments associated with the Russian war with Ukraine, inflation concerns in the U.S., Middle East violence, and significant government policy changes in the U.S. and elsewhere that are altering global trade and financial flows. Most equity indices worldwide delivered positive returns over the period.
- Stock selection was a positive contributor to relative performance, consistent with the Fund's bottom-up investment approach. Sector and geographic allocations detracted from relative results. The Fund's cash and currency forwards allocations were also a drag on performance.
- During the year, stock selection in Communication Services, Financials, and the U.S. helped drive relative performance. The Fund's underweight allocation to Information Technology and weaker security selection in Materials hampered relative returns. In Turkey, both an overweight position and negative security selection detracted from returns.

**Thornburg Global Investment plc**  
**Investment Manager's Report (continued)**  
**Thornburg Equity Income Builder Fund**

---

**Investment Goal and Fund Overview**

The Fund's investment objective is to provide long-term income growth and capital appreciation.

The Fund pursues its investment goals primarily by investing in a broad range of income producing securities, including stocks and bonds. The Fund will under normal conditions invest at least 80% of its assets in income-producing common or preferred stocks.

**Performance drivers and detractors for the reporting period ended 30 September 2025**

- For the one-year period ended 30 September 2025, Thornburg Equity Income Builder Fund (I shares, Accumulating) returned 23.86% outperforming the MSCI World Index (the "Index"), which returned 17.25%.
- During the year, major world events included the ongoing developments associated with the Russian war with Ukraine, inflation concerns in the U.S., Middle East violence, and significant government policy changes in the U.S. and elsewhere that are altering global trade and financial flows. Most equity indices worldwide delivered positive returns over the period.
- The Fund's bias towards higher dividend-paying markets abroad aided the Fund's outperformance versus the Index. Overweight allocations and security selection within the Communication Services and Financials sectors boosted relative performance to the Index.
- On a geographic basis, stock selection and an overweight allocation to Europe bolstered relative returns, while currency hedging and cash negatively contributed to relative performance.

**Thornburg Global Investment plc**  
**Investment Manager's Report (continued)**  
**Thornburg Global Growth Equity Fund**

---

**Investment Goal and Fund Overview**

The Fund's primary investment objective is long-term capital appreciation by investing primarily in a concentrated, unconstrained global equity portfolio.

The Fund seeks to achieve its investment objective by investing primarily in equity and equity related securities located around the world, including developing countries, emerging market countries and the United States. The Fund has no limitation on the capitalization size of the companies in which it invests, the industry focus of companies invested in nor on its ability to invest in securities issued from any country. As such, the Fund will invest in various countries and various industries.

**Performance drivers and detractors for the reporting period ended 30 September 2025**

- For the one-year period ended 30 September 2025, Thornburg Global Growth Equity Fund (I shares, Accumulating) returned 14.07% underperforming the MSCI All Country World Growth Net Total Return USD Index (the "Index"), which returned 22.21%.
- During the year, major world events included the ongoing developments associated with the Russian war with Ukraine, inflation concerns in the U.S., Middle East violence, and significant government policy changes in the U.S. and elsewhere that are altering global trade and financial flows. Most equity indices worldwide delivered positive returns over the period.
- The Fund's underperformance relative to the Index was primarily driven by stock selection across sectors and countries.
- On a sector basis, selection effect within Health Care and Information Technology were primary detractors to relative results, while stock picking in Financials and Communication Services contributed positively. Security selection within Denmark and Sweden detracted from relative returns, while selection effect in Pacific ex-Japan was additive.

**Thornburg Global Investment plc**  
**Investment Manager's Report (continued)**  
**Thornburg Limited Term Income Fund**

---

**Investment Goal and Fund Overview**

The primary goal of Limited Term Income Fund is to provide as high a level of current income as possible while at the same time seeking to preserve capital. As a secondary goal, the Fund seeks to reduce changes in its share prices compared to longer term portfolios.

The Fund is an actively managed, laddered portfolio of short/intermediate investment grade obligations with an average maturity of less than five years. Laddering involves staggering bond maturities so that a portion of the portfolio matures each year; cash from maturing bonds is invested in bonds with longer maturities at the far end of the ladder.

**Performance drivers and detractors for the reporting period ended 30 September 2025**

- For the one-year period ended 30 September 2025, Thornburg Limited Term Income Fund (I shares, Accumulating) returned 4.40% outperforming the Bloomberg Intermediate U.S. Government/Credit Index (the "Index"), which returned 4.01%.
- Against a backdrop of a steepening yield curve and tightening credit spreads, short end yields generally moved lower as long end rates rose, pressuring longer duration bond prices and reducing absolute returns during much of the period. The backdrop of rising yields negatively impacted bond prices due to the inverse relationship between the two, producing challenged returns for the asset class. However, the Fund's relative outperformance during the period was driven by its shorter duration and its focus on opportunistic higher yielding sectors.
- Tactical positioning in yield curve segments and security selection provided relative opportunities, and the Fund's relative results were influenced by its short duration bias versus the Index.

**Thornburg Global Investment plc**  
**Investment Manager's Report (continued)**  
**Thornburg Strategic Income Fund**

---

**Investment Goal and Fund Overview**

Strategic Income Fund's primary investment goal is to seek a high level of current income. The Fund's secondary investment goal is some long-term capital appreciation.

The Fund is a global, income-oriented fund that seeks to provide notably higher total return potential than core fixed income with incrementally less risk. The portfolio invests in a combination of income-producing securities with an emphasis on higher-yielding sectors of the fixed income market.

**Performance drivers and detractors for the reporting period ended 30 September 2025**

- For the one-year period ended 30 September 2025, Thornburg Strategic Income Fund (I shares, Accumulating) returned 4.34% outperforming the Bloomberg U.S. Universal Index (the "Index"), which returned 3.40%.
- Against a backdrop of a steepening yield curve and tightening credit spreads, short end yields generally moved lower as long end rates rose, pressuring longer duration bond prices and reducing absolute returns during much of the period. The backdrop of rising yields negatively impacted bond prices due to the inverse relationship between the two, producing challenged returns for the asset class. However, the Fund's relative outperformance during the period was driven by its shorter duration and its focus on opportunistic higher yielding sectors.
- Tactical positioning in yield curve segments and security selection provided relative opportunities, and the Fund's relative results were influenced by its short duration bias versus the Index.

# Independent auditors' report to the members of Thornburg Global Investment plc

## Report on the audit of the financial statements

---

### Opinion

In our opinion, Thornburg Global Investment plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 30 September 2025 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 30 September 2025;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flows for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Statement of Investments for each of the Funds as at 30 September 2025; and
- the Notes to the financial statements for the Company and for each of its Funds, which include a description of the accounting policies.

---

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

---

### Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

---

## Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 September 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

---

## Responsibilities for the financial statements and the audit

### *Responsibilities of the directors for the financial statements*

As explained more fully in the Statement of Directors' responsibilities set out on page 5, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### *Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

[https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf)

This description forms part of our auditors' report.

### *Use of this report*

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

---

## **Other required reporting**

---

### **Companies Act 2014 opinions on other matters**

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

---

### **Companies Act 2014 exception reporting**

#### *Directors' remuneration and transactions*

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

The accompanying notes on pages 27 to 72 form an integral part of these financial statements.

**NOTE 1 – MATERIAL ACCOUNTING POLICIES**

The principal accounting policies applied in the preparation of these financial statements are set out below.

**Basis of Preparation of Financial Statements**

The financial statements of Thornburg Global Investment plc (the “Company”) have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union, Irish statute comprising the Companies Act 2014, as amended, the UCITS Regulations and the Central Bank UCITS Regulations. The financial statements are prepared on the going concern basis and under the historical cost convention, as modified by the revaluation of financial assets and liabilities at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires the Board of Directors to exercise its judgement in the process of applying the Company’s accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed below in ‘Financial Assets and Liabilities at Fair Value through Profit or Loss’, and in the selection of the functional currency in ‘Foreign Currency Translation’.

**Standards and amendments to existing standards****New standards, amendments and interpretations effective for the first time for the financial year beginning 1 October 2024**

There are a number of standards, amendments to standards or interpretations that are effective for the financial periods beginning on 1 October 2024.

The following new and amended standards and interpretations are not expected to have a material impact on the Company’s financial statements:

- Classification of Liabilities as Current or Non-Current (Amendments to IAS 1).
- Lease Liability in a Sale and Leaseback (Amendments to IFRS 16).
- Disclosure of Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7).

**New standards, amendments and interpretations issued but not effective for the financial year beginning 1 October 2024 and not early adopted**

A number of new standards, amendments to standards and interpretations are effective for the financial periods beginning after 1 October 2024, and have not been early adopted in preparing these financial statements.

IFRS 18 “Presentation and Disclosure in Financial Statements” was issued in April 2024 and applies to an annual reporting period beginning on or after 1 January 2027. IFRS 18 replaces IAS 1 “Presentation of Financial Statements”. IFRS 18 aims to improve financial reporting by requiring additional defined income and expense subtotals in the statement of profit or loss, requiring disclosures about management-defined performance measures and adding new principles for grouping (aggregation and disaggregation) of information. The new standard is expected to have a material impact on the Company’s disclosures in its financial statements.

The following new and amended standards and interpretations are not expected to have a material impact on the Company’s financial statements:

- Lack of Exchangeability (Amendments to IAS 21).
- Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments.
- Annual Improvements to IFRS Accounting Standards (Amendments to IFRS 1, IFRS 7, IFRS 9, IFRS 10, IAS 7).
- Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7).
- IFRS 19 – Subsidiaries without Public Accountability: Disclosures.
- The third edition of IFRS for SMEs Accounting Standard.

**Financial Assets and Liabilities**

Financial assets and financial liabilities at fair value through profit or loss are recognised on the Statement of Financial Position when the Company becomes a party to the contractual provisions of the instrument. Other financial assets and financial liabilities are recognised at the date they are originated.

**NOTE 1 – MATERIAL ACCOUNTING POLICIES (continued)****Financial Assets and Liabilities (continued)***(a) Financial assets and liabilities classification and measurement*

IFRS 9 (“Financial Instruments”) contains three classification categories for financial instruments: measured at amortised cost, fair value through other comprehensive income (“FVOCI”) and fair value through profit or loss (“FVTPL”). The classification (and subsequent measurement) of a financial instrument is based on the business model in which the financial instrument is managed, and where relevant, its cash flow characteristics. Since the Company manages and evaluates the performance of all of its financial instruments listed in the Statement of Investments on a fair value basis in accordance with a documented investment strategy it must classify its financial assets and financial liabilities as FVTPL.

Financial instruments are measured initially at fair value (transaction price) plus, in the case of financial assets or financial liabilities not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. Transaction costs on financial assets and financial liabilities at fair value through profit or loss are expensed immediately, whereas they are amortised on other financial instruments. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income. Realised and unrealised gains and losses on derivatives are recognised in the Statement of Comprehensive Income.

*(b) Recognition/Derecognition*

Purchases and sales of financial assets or liabilities at fair value through profit or loss are recognised on trade date - the date on which the Company commits to purchase or sell the asset. Financial assets at fair value through profit or loss are derecognised when the rights to receive cash flows from the financial assets or liabilities at fair value through profit or loss have expired or the Company has transferred substantially all risks and rewards of ownership. Realised fair value gains and losses on disposals of financial instruments are calculated using the identified cost method.

*(c) Specific Investments**Forward Foreign Currency Contracts*

All forward foreign currency contract commitments are marked to market at the applicable translation rates and any resulting unrealised gains or losses is recorded in the Statement of Comprehensive Income. The Company records realised gains or losses upon closing of the forward foreign currency contracts.

Purchases and sales of forward foreign currency contracts having the same notional value, settlement date and counterparty are generally offset and any realised gains or losses are recognised on settlement date. Forward foreign currency contracts may result in credit exposure to the counterparty.

Forward foreign currency contracts may be used to hedge the currency exposure of share classes denominated in currencies other than the Fund’s base currency. These contracts are used solely for hedging purposes and not to generate investment returns.

*Warrants*

Warrants are sometimes used to gain exposure to emerging market equities where custody, liquidity, or other issues make ownership of local shares sub-optimal.

The valuation of the warrants depends on the level of trading. If the warrants are actively traded in the market, then the market price is used. If the warrants are not actively traded in the market, the intrinsic value of the warrant based on underlying equity price and warrant strike price is used. Warrants by their nature are covered investments.

*(d) Measurement*

Financial assets and liabilities at fair value through profit or loss are initially recognised at fair value. Subsequent to initial recognition, all financial assets and liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the ‘financial assets or liabilities at fair value through profit or loss’ category are presented in the Statement of Comprehensive Income in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within investment income when the Company’s right to receive payments is established.

**NOTE 1 – MATERIAL ACCOUNTING POLICIES (continued)****Financial Assets and Liabilities (continued)***(e) Fair Value Estimation*

Fair value is the amount for which an asset could be exchanged or a liability settled, between knowledgeable willing parties in an arm's length transaction. The fair value of financial instruments traded in active markets (such as trading securities) or any other regulated market (such as corporate bonds, government bonds, municipal bonds, asset backed securities ("ABS"), and mortgage backed securities ("MBS")) is based on their quoted market prices at the reporting date without any deduction for estimated future selling costs. For the purpose of these financial statements, the quoted market price used for financial assets held by the Company is the last traded price; the appropriate quoted market price for financial liabilities is the last traded price. The fair value of financial instruments that are not traded in an active market such as over the counter ("OTC") derivative financial instruments is determined by using valuation techniques. The Company uses a variety of methods and makes assumptions that are based on market conditions existing at each Statement of Financial Position date. Valuation techniques used include the use of comparable recent ordinary transactions between market participants, reference to other instruments that are substantially the same and other valuation techniques commonly used by market participants. The details of fair value estimation are presented in Note 12.

**Foreign Currency Translation***Functional and Presentation Currency*

Items included in the Company's financial statements are measured using the currency of the primary economic environment in which the Company operates (the "functional currency"), which is United States Dollar ("US\$"). The presentation currency of the Company is also US\$.

*Transactions and Balances*

Transactions in foreign currencies are translated into the functional currency at the rate of exchange prevailing at the transaction date. Foreign exchange gains or losses on settled transactions and from the translation at financial year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

**Transaction Costs**

Transaction costs are costs incurred to acquire financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisers, brokers and dealers. Transaction costs are expensed as incurred in the Statement of Comprehensive Income and disclosed under the heading Expenses in the Statement of Comprehensive Income.

**Offsetting Financial Instruments**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where the Company currently has a legally enforceable right to set-off the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

**Cash, Cash Equivalents and Bank Overdraft**

Cash at bank balances are comprised of cash balances held within State Street Bank and Trust Company's ("State Street") custodian network and net unrealised appreciation and depreciation on open spot foreign currency exchange contracts. Bank overdrafts are shown as current liabilities on the Statement of Financial Position.

**Receivable for Investments Sold and Payable for Investments Purchased**

Receivable for investments sold and payable for investments purchased represent amounts receivable and payable respectively, for transactions contracted for but not yet delivered at the end of the financial year. These amounts are recognised initially at fair value and subsequently at amortised cost.

**NOTE 1 – MATERIAL ACCOUNTING POLICIES (continued)****Redeemable Participating Shares**

The Company issues Redeemable Participating Shares, which are redeemable at the holder's option and are classified as financial liabilities. As the Company has non-participating shares in issue that are classified as "equity" in accordance with IAS 32, the redeemable participating shares do not represent that most "subordinate" class of instrument. They have a priority over other claims to the assets of the entity on liquidation. The size of the class that is the most "subordinate class" is not a factor in determining the classification. Redeemable Participating Shares can be put back to the Company at any time for cash equal to a proportionate share of the Company's Net Asset Value. The Redeemable Participating Share is carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the share back to the Company.

Redeemable Participating Shares are issued and redeemed at the holder's option at prices based on the Company's Net Asset Value per share at the time of issue or redemption. The Company's Net Asset Value per share is calculated by dividing the Net Assets Attributable to Holders of Redeemable Participating Shares with the total number of outstanding Redeemable Participating Shares. In accordance with the provisions of the Company's regulations, investment positions are valued based on the last traded market price for the purpose of determining the Net Asset Value per share for subscriptions and redemptions.

**Income Recognition**

Interest income is accrued on a daily basis. Dividend income is recognised in the Statement of Comprehensive Income on the date upon which the relevant securities are listed as "ex-dividend" to the extent that information thereon is reasonably available to the Funds. Income is shown gross of any non-recoverable withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

**Accrued Expenses**

Expenses, including investment management fees, are recognised in the Statement of Comprehensive Income on an accruals basis.

**Taxation**

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, it is not chargeable to Irish tax on its income and gains. However, Irish tax can arise on the happening of a "chargeable event".

A chargeable event includes any distribution payments to Shareholders or any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a Shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidated Act, 1997, as amended, are held by the Company or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations, and
- certain exempted Irish tax resident Shareholders who have provided the Company with the necessary signed statutory declarations.

There was no chargeable event during the financial year under review.

Capital gains, dividends, and interest received by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its Shareholders (depending on the relevant Double Taxation Treaty).

In accordance with the "reporting fund" regime introduced by the United Kingdom HM Revenue and Customs, each share class will be viewed as a separate "offshore fund" for UK tax purposes. The reporting regime permits an "offshore fund" to seek advance approval from HM Revenue and Customs to be treated as a "reporting fund". Once an "offshore fund" has been granted "reporting fund" status it will maintain that status for so long as it continues to satisfy the conditions to be a "reporting fund" without a requirement to apply for further certification by HM Revenue and Customs.

**NOTE 1 – MATERIAL ACCOUNTING POLICIES (continued)****Taxation (continued)**

The following Share Classes in the Company have been treated as a “reporting fund”. This was approved by HM Revenue and Customs.

Thornburg International Equity Fund – Class IUA  
Thornburg Equity Income Builder Fund – Class AUA  
Thornburg Equity Income Builder Fund – Class AUD  
Thornburg Equity Income Builder Fund – Class IUA  
Thornburg Equity Income Builder Fund – Class NUA  
Thornburg Limited Term Income Fund – Class AUA  
Thornburg Limited Term Income Fund – Class IUA  
Thornburg Strategic Income Fund – Class AUA  
Thornburg Strategic Income Fund – Class IUA

GloBE Rules or Pillar Two model rules were published by the Organisation for Economic Co-operation and Development (“OECD”) in 2021 to address the tax challenges arising from the digitalization of the economies and harmonize international corporate taxation. Pillar Two legislation was enacted in Ireland on 18 December 2023 and has come into effect from 1 January 2024. For the year ended 30 September 2025, the Directors have assessed that these rules do not apply to the Funds and as such there is no potential impact on Thornburg Global Investment plc as a result of adoption from 1 January 2024.

**NOTE 2 – CASH AND CASH EQUIVALENTS****As at 30 September 2025 and 30 September 2024**

All cash and cash equivalents at the financial year end are held with State Street Custodial Services (Ireland) Limited and are detailed in the Statement of Financial Position.

In accordance with Central Bank Investor Money Regulations (“IMR”), which became effective since 1 July 2016, the cash held in third party collection accounts to receive subscription money and remit redemption proceeds and dividends are now deemed assets of the Company. As at 30 September 2025, US\$Nil (30 September 2024: US\$1,000,000) was held in a collection account for Thornburg Equity Income Builder Fund.

**NOTE 6 – NET ASSET VALUE PER REDEEMABLE PARTICIPATING SHARE**

The Net Asset Value per Redeemable Participating Share is calculated by dividing the Total Net Assets (as calculated for shareholder dealing purposes) of each share class by the number of Redeemable Participating Shares of that class in issue. The Net Asset Value per Redeemable Participating Share reported in the Statement of Financial Position is that used for shareholder dealing purposes.

**NOTE 7 – SHARE CAPITAL**
**Authorised**

The authorised share capital of the Company is €300,000 divided into 300,000 redeemable non-participating shares of €1.00 each and 500,000,000,000 Redeemable Participating Shares of no par value. Non-participating shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the amount paid up thereon but do not otherwise entitle them to participate in the assets of the Company. The Directors have the power to allot shares in the capital of the Company on such terms and in such manner as they may think fit. There are 2 non-participating shares currently in issue, 1 each held by Thornburg Investment Management, Inc. and Thornburg Securities LLC.

**NOTE 8 – INVESTMENT MANAGER FEES**

Thornburg Investment Management, Inc. (the “Investment Manager”) is entitled to receive out of the assets of one or more Funds an annual fee in respect of each Class of any such Fund, at an agreed annual percentage rate of the Net Asset Value of such Class.

Fees payable to the Investment Manager are calculated and accrued at each valuation point and are payable monthly in arrears. Any out of pocket expenses incurred by the Investment Manager in carrying out its role on behalf of the Company shall be for its own account.

The Investment Manager is entitled to receive out of the net assets of each of the Funds an annual fee equal to the following percentage of the Net Asset Value of the Funds:

**NOTE 8 – INVESTMENT MANAGER FEES (continued)**

The table below reflects fees earned, fees reimbursed and amounts outstanding for the financial years ended 30 September 2025 and 30 September 2024.

	Investment manager fees earned US\$	Investment manager fees payable US\$	Expense reimbursement US\$	Expense reimbursement receivable US\$
30 September 2025	3,659,803	382,747	1,320,743	171,076
30 September 2024	2,689,174	262,647	1,325,429	119,175

**NOTE 9 – MANAGER, ADMINISTRATION, TRANSFER AGENT, TRUSTEE AND DEPOSITARY FEES**

Waystone Management Company (IE) Limited (the “Manager”) is entitled to receive out of the assets of the relevant Fund, an annual fee, accrued on each Dealing Day and payable quarterly in arrears, at an annual rate of up to 0.02% per annum of the Net Asset Value of the Company (“Manager Fee”). The Manager Fee is subject to a minimum fee which is the higher of (i) €70,000 per annum in respect of the Company and its Funds or (ii) €20,000 per annum per Fund (“Minimum Manager Fee”). Where a Fund is subject to the European Markets Infrastructure Regulation (“EMIR”) reporting requirements, there will be an additional fee of €2,500 per Fund per annum over and above the Minimum Manager Fee.

The Manager is also entitled to be reimbursed out of the assets of each Fund for the reasonable out-of-pocket costs and expenses incurred by the Manager in the performance of its duties (plus VAT thereon, if any).

The table below reflects the Manager fees earned and amounts outstanding for the financial years ended 30 September 2025 and 30 September 2024.

	Manager fees earned US\$	Manager fees payable US\$
30 September 2025	167,359	73,529
30 September 2024	137,637	54,908

State Street Fund Services (Ireland) Limited (the “Administrator”) is entitled to receive out of the assets of each Fund an annual fee, accrued daily, payable monthly in arrears and calculated at a rate of 0.04% per annum on the first US\$200 million of the Net Asset Value of each Fund, 0.03% of the Net Asset Value between US\$200 million and US\$500 million, 0.02% on the Net Asset Value between US\$500 million and US\$1 billion and 0.0175% on the Net Asset Value in excess of US\$1 billion. This fee is subject to a minimum of US\$78,000 per annum. Each Fund will bear its proportion of this fee based on the relevant Fund’s assets under management.

The Administrator is entitled to registrar and transfer agency fees at standard rates per Shareholder movement subject to a minimum of US\$150,000 per annum. Each Fund bears its proportion of this fee based on the relevant Fund’s assets under management.

The Administrator is also entitled to recover out-of-pocket expenses (plus VAT thereon, if any) reasonably incurred on behalf of any Fund out of the assets of the relevant Fund on an actual cost basis.

The table below reflects Administration and Transfer agent fees earned and amounts outstanding for the financial years ended 30 September 2025 and 30 September 2024.

	Administration fees earned US\$	Administration fees payable US\$	Transfer agent fees earned US\$	Transfer agent fees payable US\$
30 September 2025	460,056	84,917	324,374	88,283
30 September 2024	533,988	313,286	270,788	167,901

The Depositary is entitled to receive an annual trustee fee in respect of each Fund accrued daily and payable monthly in arrears at an agreed annual percentage rate of the Net Asset Value of such Fund of 0.02% per annum of the Net Asset Value of the relevant Fund.

**NOTE 9 – MANAGER, ADMINISTRATION, TRANSFER AGENT, TRUSTEE AND DEPOSITARY FEES (continued)**

The Depositary is also entitled to agreed upon transaction and cash service charges and to recover properly vouched out-of-pocket expenses out of the assets of the Fund (plus VAT thereon, if any), including expenses of any sub-custodian appointed by it which shall be at normal commercial rates.

The table below reflects Depositary fees and Trustee fees earned and amounts outstanding for the financial years ended 30 September 2025 and 30 September 2024.

	Depositary fees earned	Depositary fees payable
	US\$	US\$
30 September 2025	189,282	25,199
30 September 2024	133,681	67,379

**NOTE 10 – DIRECTORS' FEES AND AUDIT FEES**

The Articles authorise the Directors to charge a fee for their services at a rate determined by the Directors. The Directors have determined that the maximum fee per Director for the Company and first fund included shall not exceed €25,000 plus a maximum of up to €5,000 per Director for each additional fund after the first fund per annum (excluding VAT), or other such amount as the Directors may from time to time determine and notify to Shareholders in the annual statutory financial statements for the Company.

All Directors are entitled to reimbursement by the Company for expenses properly incurred in connection with the business of the Company or the discharge of their duties.

Each non-independent board member has agreed to waive their fees.

The table below reflects the aggregate emoluments of all Directors for the financial years ended 30 September 2025 and 30 September 2024.

	Total emoluments of all Directors' fees waived	Total emoluments of all Directors' fees earned	Total emoluments of all Directors' out of pocket fees earned	Total emoluments of all Directors' fees payable	Total Directors' fees
	US\$	US\$	US\$	US\$	US\$
30 September 2025	-	101,032	65	41,974	101,097
30 September 2024	-	100,824	-	53,741	100,824

Auditor's remuneration (exclusive of VAT and out-of-pocket expenses), which is included within Audit and tax fees in the Statement of Comprehensive Income, for work carried out for the Company in respect of the financial years ended 30 September 2025 and 30 September 2024 is as follows:

	30 September 2025	30 September 2024
	US\$	US\$
Audit of Company statutory financial statements	102,025	98,439
Tax advisory services	55,164	38,102

**NOTE 11 – DISTRIBUTIONS PAYABLE TO HOLDERS OF REDEEMABLE PARTICIPATING SHARES**

Distributing classes for Thornburg Equity Income Builder Fund will normally declare dividends on a quarterly basis. Distributing classes for Thornburg Limited Term Income Fund and Distributing classes for Thornburg Strategic Income Fund will normally declare dividends on a monthly basis. The distribution on the redeemable shares is recognised as a finance cost in the Statement of Comprehensive Income.

**NOTE 11 – DISTRIBUTIONS PAYABLE TO HOLDERS OF REDEEMABLE PARTICIPATING SHARES (continued)**

During the financial years ended 30 September 2025 and 30 September 2024 the following dividends were declared:

**Thornburg Equity Income Builder Fund<sup>1</sup>**

Share Class	Ex-Dividend Date	Amount		Share Class	Ex-Dividend Date	Amount	
		30 September 2025	US\$			30 September 2024	US\$

**NOTE 12 – FINANCIAL RISK MANAGEMENT**

The Funds' activities expose them to a variety of financial risks: market risk (including market price risk, currency risk and interest rate risk), liquidity risk and credit risk. The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance. The Funds use derivative financial instruments to moderate certain risk exposures. The risks, and the Directors' approach to the management of the risks, are as follows:

**Market Price Risk**

Market price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Fund might suffer through holding market positions in the face of price movements. The Investment Manager aims to reduce the market price risk through diversification and uses analysis and research in order to minimise the risk associated with particular countries or companies whilst continuing to follow the Funds' investment objectives.

The Investment Manager may use derivative instruments to hedge or reduce the market price risk on its investment portfolios where appropriate.

All securities investments present a risk of loss of capital. The Investment Manager moderates this risk through a careful selection of securities and other financial instruments within specified limits, as set forth in the Company's prospectus. The Funds' concentrations in market price exposures at 30 September 2025 are detailed in the Statement of Investments on pages 73 through 123.

The market price risk is affected mainly by the changes in actual market prices and the foreign currency movements. Foreign currency movements are covered in the section below on currency risk.

**NOTE 12 – FINANCIAL RISK MANAGEMENT (continued)**

**Market Price Risk (continued)**

The Company employs the standard commitment approach to monitor its global risk exposure.

In accordance with the Commitment Approach, global exposure is broadly defined as the total market value of the equivalent underlying to all of the financial derivative instruments ("FDIs") entered into by a Fund.

The measurement and monitoring of all exposures relating to the use of FDI will be performed on at least a daily basis.

**Sensitivity Analysis**

The following sensitivity analysis assumes a change in the market price of investments while holding all other variables constant. In practice this is unlikely to occur, and changes in some of the variables may be correlated. In addition, as the sensitivity analysis uses historical data as a basis for determining future events, it does not encompass all possible scenarios, particularly those that are of an extreme nature.

At 30 September 2025 and 30 September 2024, had the market price of investments increased or decreased by 5% with all other variables held constant, this would have increased or reduced Net Assets Attributable to Holders of Redeemable Participating Shares, respectively by approximately the amounts below:

	30 September 2025	30 September 2024
	Impact to Net Asset Value	Impact to Net Asset Value
	US\$	US\$
Thornburg International Equity Fund	1,554,134	1,463,155
Thornburg Global Opportunities Fund	1,054,848	763,293
Thornburg Equity Income Builder Fund <sup>1</sup>	8,666,967	3,315,773
Thornburg Global Growth Equity Fund	160,897	249,798
Thornburg Limited Term Income Fund	3,460,206	4,074,180
Thornburg Strategic Income Fund	4,548,988	3,765,150

<sup>1</sup> The name change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

Other investments have been excluded from the analysis above as these investments are held for a short period of time and the risk of significant movement in market prices is low.

**Currency Risk**

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Certain elements of each Fund's assets, liabilities, income and expenses are denominated in currencies other than their functional currency. As a result, movements in exchange rates may affect the value of those items. Income denominated in foreign currencies is managed alongside any other currency balances the Funds may have.

In accordance with Company policy, the Investment Manager monitors the Funds' exposure to foreign currencies on a daily basis. The Directors rely upon the Investment Manager to keep it informed of any material event.

The Investment Manager measures the risk to the Company of the foreign currency exposure by considering the effect, on the Funds' Net Asset Value and on income, of a movement in the rates of exchange to which the Funds' assets, liabilities, income and expenses are exposed. The Funds' currency positions are monitored on a daily basis by the Investment Manager.

To mitigate the Funds' exposure to foreign exchange risk, if appropriate, forward foreign currency contracts may be used to limit the Funds' exposure to anticipated future changes in exchange rates which might otherwise adversely affect the value of the Funds. Where appropriate, they are also used to assist the Company in meeting its investment objectives.

Sensitivity analysis is estimated based on significant non-functional currency exposures that each of the Funds had as at 30 September 2025 and 30 September 2024. This analysis is intended as a relative estimate of currency risk for each of the Funds, rather than as precise numbers. Therefore, the amounts presented represent hypothetical outcomes which are not intended to be predictive, as future market conditions could vary significantly from those experienced in the past.

**NOTE 12 – FINANCIAL RISK MANAGEMENT (continued)**

**Currency Risk (continued)**

The following tables set out the Fund's total exposure to foreign currency risk and the effect on the Net Assets Attributable to Holders of Redeemable Participating Shares of the Fund had the exchange rate between the US\$ and the relevant currency increased or decreased by 5% with all other variables held constant.

<sup>1</sup> The name change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

The Funds' concentrations in non-functional currency exposures relating to investments at 30 September 2025 and 30 September 2024 are detailed in the Statement of Investments on pages 73 through 123.

**NOTE 12 – FINANCIAL RISK MANAGEMENT (continued)**

**Interest Rate Risk**

Interest rate risk arises from the effect of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flows. The Funds' interest bearing financial assets and liabilities expose them to risk associated with the effects of fluctuations in the prevailing levels of market interest rates on their financial position and cash flows.

Interest rate risk is managed, in part by the security-selection process of the Investment Manager, which includes predictions of future events and their impact on interest rates, diversification and duration.

The Funds' floating rate financial assets comprise cash at bank and floating rate bonds. The cash at bank is available on call or else is invested in short term cash funds.

The majority of the Funds' financial assets and liabilities for Thornburg International Equity Fund, Thornburg Global Opportunities Fund, Thornburg Equity Income Builder Fund and Thornburg Global Growth Equity Fund were non-interest bearing as at 30 September 2025 and 30 September 2024. As a result, these Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash is invested at short-term market interest rates.

At the financial years end 30 September 2025 and 30 September 2024, the Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund invested in fixed income instruments and therefore are exposed to the effects of fluctuations in the prevailing level of market interest rates on its financial position.

The following table details each Fund's exposure to interest rate risk. It includes the Funds' assets and trading liabilities at fair values, categorised by maturity date and measured by the carrying value of the assets and liabilities at 30 September 2025.

**Liquidity Risk**

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The Company is exposed to daily cash redemptions of Redeemable Participating Shares. To manage this liquidity risk, the Company reserves the right to limit the amount of Redeemable Participating Shares that may be redeemed by an individual Shareholder, and the amount of Redeemable Participating Shares that may be redeemed in aggregate, on any Dealing Day, as specified in the Company's prospectus.

Lack of liquidity and efficiency in certain stock markets or foreign exchange markets in certain emerging markets may also mean that from time to time the Investment Manager may experience more difficulty in purchasing or selling holdings of securities than it would in a more developed market.

The Funds may invest in shares of companies listed on emerging market exchanges which are less liquid and more volatile than the world's leading stock markets and this may result in greater fluctuations in the price of Redeemable Participating Shares of a Fund. There can be no assurance that there will be any market for an investment acquired in an emerging market and such lack of liquidity may adversely affect the value or ease of disposal of such investments.

The Directors may exercise all borrowing powers on behalf of the Company and charge its undertaking, property and assets or any part thereof only in accordance with the provisions of the UCITS Regulations or as permitted by the Central Bank. The Company may borrow up to 10% of the Net Asset Value of each Fund on a temporary basis.

If the number of Shares of a Fund to be redeemed on any Dealing Day equals one tenth or more of the total number of Shares of that Fund in issue on that day the Directors or their delegate may at their discretion refuse to redeem any Shares of that Fund in excess of one tenth of the total number of Shares of that Fund in issue. If they so refuse, the requests for redemption on such Dealing Day shall be reduced pro rata and Shares of that Fund which are not redeemed by reason of such refusal shall be treated as if a request for redemption had been made in respect of each subsequent Dealing Day until all Shares of that Fund to which the original request related have been redeemed.

In addition, the Company may satisfy redemption requests by way of in-specie transfer, once agreed to by the relevant shareholder and that shareholder requests a redemption representing 5% or more of the Net Asset Value of the relevant Fund.

**NOTE 12 – FINANCIAL RISK MANAGEMENT (continued)**

<sup>1</sup> The name change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

**Credit Risk**

The Company is exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default. Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund invest in a broad range of income producing securities and as a result are subject to the risk that a counterparty will be unable to pay amounts in full when due. Counterparty must have a minimum rating of Investment Grade or equivalent. The other Funds' hold primarily equity securities and other investments. As a result, these Funds generally are not subject to significant amounts of credit risk.

Cash held via accounts opened on the books of the Depository are obligations of the Depository while cash held in accounts opened directly on the books of a third party cash correspondent bank, sub-custodian or a broker (collectively "agency accounts") are obligations of the agent.

Cash held via agency cash accounts are liabilities of the agent, creating a debtor/creditor relationship directly between the agent and the Company. The Fund's financial assets are held with the Depository and the sub-custodians, who have a credit rating above investment grade.

Accordingly, while the Depository is responsible for exercising reasonable care in the administration of such agency cash accounts where it has appointed the agent (i.e. in the case of cash correspondent banks and sub-custodians), it is not liable for their repayment in the event the agent, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

The Company's cash and cash equivalents and bank overdraft held with the Depository or with third party institutions approved by the Company at 30 September 2025 and 30 September 2024 are detailed on the Statement of Financial Position.

The Depository must ensure that there is legal separation of non-cash assets held in custody, that such assets are held on a fiduciary basis, and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under custody. The Depository must ensure the ownership of each asset and the location of documents of title for each asset.

All securities that the Depository holds in custody (as global sub-custodian for and on behalf of the Depository for further benefit of its underlying clients) are segregated from the Depository's own assets, whether they are held in the Depository's vault, in segregate. The Depository maintains segregated accounts per client on its own books as well as on the books of the sub-custodian in the local market, where this is possible.

The Company has counterparty risk in relation to transactions it enters into with counterparties to derivative financial instruments, if the counterparty was to fail to complete any transaction to which the Company is a party. The Investment Manager conducts periodic reviews of the counterparties with whom it conducts transactions.

The Depository must also ensure non-cash assets are held on a fiduciary basis through the Depository's network of global sub-custodians. The Depository's sub-custodians are required by contract with the Depository and generally by operation of law to segregate the securities of custody clients from the general banking assets of the sub-custodian.

**NOTE 12 – FINANCIAL RISK MANAGEMENT (continued)****Credit Risk (continued)**

The Depositary performs both initial and ongoing due diligence reviews on the sub-custodians within its global custody network through its Network Management group. Such reviews include an assessment of service level standards, management expertise, market information, custody operations, reporting and technology capabilities at the sub-custodian, as well as reviews in relation to their reputation and standing in the market and their ongoing commitment to providing custody services.

Service level agreements are put in place with each sub-custodian, as well as the usual contractual arrangements, and these are reviewed on a regular basis through service review meetings, including onsite due diligence meetings.

Regular financial analysis of all sub-custodians is carried out by the Depositary's Risk and Credit group and is focused on the sub-custodian bank's capital adequacy, asset quality, earnings, liquidity and credit ratings as key indicators, amongst others. These reviews form part of the Depositary's routine assessment of a sub-custodian's financial strength and standing.

All of the cash at bank held by the Company is held by the Depositary. Cash, as a practical matter, may not be held in physical segregation, therefore bankruptcy or insolvency by the Depositary may cause the Company's rights in respect to the cash held by the Depositary to be delayed or limited. The Company monitors its risk by reviewing the credit quality of the Depositary.

As at 30 September 2025 and 30 September 2024, all of the Company's investments are held by the Depositary, either directly or through its network of sub-custodians, or with a third party as noted in the Statement of Investments.

The long term credit rating of the Depositary as at 30 September 2025 was AA- (30 September 2024: AA-).

**Capital Risk Management**

The capital of each Fund is represented by the Net Assets Attributable to Holders of Redeemable Participating Shares. The amount of Net Assets Attributable to Holders of Redeemable Participating Shares can change significantly on a daily basis, as the Funds are subject to daily subscriptions and redemptions at the discretion of shareholders.

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders, provide benefits for other stakeholders and maintain a strong capital base to support the development of the investment activities of each of the Funds.

In order to maintain or adjust the capital structure, the Company's policy is to perform the following:

- Redeem and issue new shares in accordance with the constitutional documents of each Fund, which include the ability to restrict redemptions and require certain minimum holdings and subscriptions.

The Directors and Investment Manager monitor capital on the basis of the value of Net Assets Attributable to Holders of Redeemable Participating Shares.

**Fair Value Estimation**

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- (i) Level 1: Investments, whose values are based on quoted market prices in active markets, and therefore classified within level 1, include active listed equities and exchange traded derivatives. Quoted prices for these instruments are not adjusted.
- (ii) Level 2: Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within level 2. These include investment-grade corporate bonds, listed equities and over-the-counter derivatives. As level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

**NOTE 12 – FINANCIAL RISK MANAGEMENT (continued)**

**Fair Value Estimation (continued)**

(iii) Level 3: Investments classified within level 3 have significant unobservable inputs, as they trade infrequently. Pricing inputs are unobservable for the investment and includes situations where there is little, if any, market activity for the instrument. The inputs into the determination of fair value require significant management judgement or estimation. As observable prices are not available for these securities, the Company has used valuation techniques to derive the fair value, if applicable.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the financial asset or liability.

The determination of what constitutes ‘observable’ requires significant judgement by the Directors in consultation with the Investment Manager. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

The carrying amounts of the Company’s assets and liabilities, other than those measured at fair value, are a reasonable approximation of fair value.

The following tables analyse within the fair value hierarchy the Company’s financial assets and liabilities measured at fair value at 30 September 2025 and 30 September 2024:

**As at 30 September 2025**

Thornburg International Equity Fund	Level 1	Level 2	Level 3	Total

\* Security value is less than \$1.

<sup>1</sup> The name change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

At 30 September 2025 and 30 September 2024, Thornburg International Equity Fund held one Level 3 security: Constellation Software, Inc.

At 30 September 2025 and 30 September 2024, Thornburg Equity Income Builder Fund held one Level 3 security: GMK Norilskiy Nickel PAO.

At 30 September 2025 and 30 September 2024, Thornburg Limited Term Income Fund held one Level 3 security: Gabelli Dividend & Income Trust.

At 30 September 2025 and 30 September 2024, Thornburg Strategic Income Fund held one Level 3 security: Gabelli Dividend & Income Trust.

There were no transfers between levels for securities held at 30 September 2025 and 30 September 2024.

The details of securities classified as level 3 for the financial years ended 30 September 2025 and 30 September 2024 are detailed below:

**Thornburg International Equity Fund**

**Constellation Software, Inc.**

As at 30 September 2025 and 30 September 2024, Thornburg International Equity Fund held warrants in Constellation Software, Inc. in the amount of 196 shares. This security is classified as level 3 in the fair value hierarchy as there is no active market for this security at 30 September 2025 and the security continues to be priced at CAD 0.0001.

**NOTE 12 – FINANCIAL RISK MANAGEMENT (continued)**

**Fair Value Estimation (continued)**

**Thornburg Equity Income Builder Fund**

**GMK Norilskiy Nickel PAO**

As at 30 September 2025 and 30 September 2024, Thornburg Equity Income Builder Fund held a position of 143,501 shares in GMK Norilskiy Nickel PAO. GMK Norilskiy Nickel PAO completed a 100:1 stock split during the year ended 30 September 2024. This security was classified as level 3 in the fair value hierarchy as it was a Russian equity position which had a direct impact following the Ukraine/Russian war. Russian equities and depositary receipts were fully written down to the nominal value of 0.000001 per currency and unit as of 24 October 2024 and are considered non-transferable, as their trading is excluded from the stock exchanges or Western Investors are excluded from the Russian markets.

**Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund**

**Gabelli Dividend & Income Trust**

As at 30 September 2025, Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund held positions in Gabelli Dividend & Income Trust in the amounts of 22 and 8 shares (30 September 2024: 22 and 8 shares), respectively. The Company purchased the positions in July of 2021. The positions held were preferred shares that were not at that time being priced by any pricing vendors. This security was classified as level 3 in the fair value hierarchy as the security was priced using a single broker quote. With single broker quotes, while the inputs into the price supplied by the brokers are observable, for example, rate, yield, industry classification and credit rating, there is no comparable quote available in the market to validate the quotation. The value of the positions as of 30 September 2025 were \$534,182 in Thornburg Limited Term Income Fund and \$194,248 in Thornburg Strategic Income Fund (30 September 2024: \$525,932 and \$191,248, respectively).

The following table presents the movement in level 3 instruments held at 30 September 2025 and at 30 September 2024:

<sup>1</sup> The name change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

**NOTE 12 – FINANCIAL RISK MANAGEMENT (continued)**

**Effect of change in significant assumptions of Level 3 financial instruments**

The appropriateness of the valuation model inputs, as well as the valuation results using various valuation methods and techniques generally recognised as standard within the industry is considered by the Investment Manager’s Pricing and Valuation Committee.

Level 3 valuations are reviewed periodically (and at a minimum quarterly) by the Investment Manager’s Pricing and Valuation Committee and/or as news develops or new information is received by the Investment Manager.

At 30 September 2025 and 30 September 2024, cash and cash equivalents are classified as Level 1. Net Assets attributable to holders of redeemable shareholders and all other assets and liabilities not measured at fair value but for which fair value is disclosed are classified as Level 2.

**NOTE 13 – OFFSETTING FINANCIAL INSTRUMENTS**

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

For financial reporting purposes, the Company does not offset derivative assets and derivative liabilities in the Statement of Financial Position.

As at 30 September 2025 the derivatives were held with Brown Brothers Harriman & Co. and State Street Bank & Trust Co. (30 September 2024: Brown Brothers Harriman & Co. and State Street Bank & Trust Co.). Therefore all derivative amounts have a right to offset only in the event of default, insolvency or bankruptcy. The following tables present the Funds’ financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements.

<sup>1</sup> The name change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

**NOTE 14 – RELATED PARTY AND SIGNIFICANT TRANSACTIONS**

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions. All Directors are considered related parties.

Thornburg Investment Management, Inc. had the following ownership of the Funds:

	% of Fund Owned	
	30 September 2025	30 September 2024
Thornburg International Equity Fund	8%	14%
Thornburg Global Opportunities Fund	24%	-
Thornburg Equity Income Builder Fund <sup>1</sup>	3%	6%
Thornburg Global Growth Equity Fund	99%	95%
Thornburg Limited Term Income Fund	15%	15%
Thornburg Strategic Income Fund	25%	29%

<sup>1</sup> The name change of Thornburg Investment Income Builder Fund to Thornburg Equity Income Builder Fund was noted by the Central Bank on 1 April 2025.

As at 30 September 2025 and 30 September 2024 there were no significant shareholders (excluding Thornburg Investment Management, Inc.) that held more than 20% of the issued share capital of each respective Fund.

Details of fees paid to the Investment Manager are listed in Note 8 and details of the fees paid to the Manager and the Depositary are listed in Note 9, respectively. Apart from these, the Directors are not aware of any transactions with related parties, during the financial year ended 30 September 2025 (30 September 2024: none).

The Company has issued 2 non-participating shares, 1 each held by Thornburg Investment Management, Inc. and Thornburg Securities LLC.

During the financial year ended 30 September 2025, Nimish Bhatt, Curtis Holloway and Jonathan Schuman were managing directors of the Investment Manager. Details of fees paid to the Directors are listed in Note 10.

**NOTE 15 – EFFICIENT PORTFOLIO MANAGEMENT**

The Company may employ techniques and instruments relating to transferable securities and/or other financial instruments in which it invests for investment purposes or hedging. Techniques and instruments utilised for the purpose of efficient portfolio management may only be used in accordance with the investment objective of the Company. Any technique or instrument must be one which is reasonably believed by the Investment Manager to be economically appropriate to the efficient portfolio management of the Company.

A Fund may also invest in financial derivative instruments as part of its investment strategy, subject to the conditions and within the limits laid down by the Central Bank, where such intention is disclosed in the Fund's investment policy. Realised and unrealised gains or losses arising from financial derivative instruments are disclosed in Net gain/(loss) from financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

No efficient portfolio management techniques were used by the Funds during the financial year ended 30 September 2025 (30 September 2024: none). There was no revenue or fees derived from efficient portfolio management during the financial year ended 30 September 2025 (30 September 2024: none).

**NOTE 16 – SOFT COMMISSIONS**

The Investment Manager, Depositary and the Administrator (the "Parties" and each a "Party") may enter into soft commission arrangements with third parties from time to time in accordance with the requirements of the Central Bank as set out below.

The Parties may effect transactions through the agency of another person with whom the Party has an arrangement under which the party acting in agency will from time to time provide or procure the Party goods and services and other benefits such as research and advisory services and computer hardware associated with special software, for example, the nature of which is such that their provision shall assist in the provision of investment services to a Fund as a whole and which no direct payment is made but instead the Party undertakes to place business with that party.

In any event, the execution of transactions will be on the basis of best execution standards and brokerage rates will not be in excess of customary institutional rates. Details of such soft commission arrangements will be disclosed in the periodic report of the Funds.

Payment of services provided by third party research providers are affected through commission sharing arrangements with selected key brokers, namely:

**30 September 2025**

Bloomberg Tradebook  
Liquidnet, Inc.  
Merrill Lynch, Pierce, Fenner & Smith, Inc.  
Sanford C. Bernstein & Co., LLC

**30 September 2024**

Bloomberg Tradebook  
Liquidnet, Inc.  
Merrill Lynch, Pierce, Fenner & Smith, Inc.  
Sanford C. Bernstein & Co., LLC

This means that some of the commission paid to these brokers, in excess of that attributable to execution, can be used to pay third parties for execution related services, the executing broker for internal research, other brokers who provide research with whom the Funds have not executed, or independent third party research providers.

There were no soft commission arrangements, other than the above, entered into by the Investment Manager or its delegate, on behalf of the Company during the financial years ended 30 September 2025 and 30 September 2024.

**NOTE 17 – EXCHANGE RATES**

The following exchange rates were used to translate financial assets and liabilities for the Funds to the functional currency.

	30 September 2025	30 September 2024
Australian Dollar (AUD)	1.511259	1.446445

South African Rand (ZAR)	17.270000	17.277500

<sup>1</sup> There was no exposure at the financial year end.

**NOTE 18 – EVENTS DURING THE FINANCIAL YEAR**

On 1 April 2025, a revised prospectus and supplements were noted by the Central Bank. The main changes noted in the updated prospectus and supplements are summarised as follows:

- The dividend policy in the fund supplements for Thornburg Equity Income Builder Fund, Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund were updated to reflect the ability of the Distribution Share Classes to facilitate dividends out of net investment income, realised and unrealised gains, realised gains net of realised and unrealised losses and capital.
- The name of Thornburg Investment Income Builder Fund changed to Thornburg Equity Income Builder Fund.
- Each Fund was reclassified as an Article 8 sub-fund pursuant to Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial section (the “SFDR”).
- Updated Share Class offering and associated terms.

On 1 April 2025, the Company Secretary changed to Matsack Trust Limited and the Company changed its registered office address to 70 Sir John Rogerson’s Quay, Dublin D02 R296, Ireland. The Company legal adviser changed to Matheson LLP.

On 29 May 2025, Curtis Holloway resigned as director of Thornburg Global Investment plc and Jonathan Schuman was appointed as a new director of the Company.

**NOTE 18 – EVENTS DURING THE FINANCIAL YEAR (continued)**

Class XUA in Thornburg Equity Income Builder Fund fully redeemed on 30 May 2025.

On 29 August 2025, the following share classes were launched:

- Class IEA in Thornburg Global Opportunities Fund and Thornburg Equity Income Builder Fund;
- Class IEA (Hedged) in Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund;
- Class IGA in Thornburg Global Opportunities Fund and Thornburg Equity Income Builder Fund;
- Class IGA (Hedged) in Thornburg Limited Term Income Fund and Thornburg Strategic Income Fund;
- Class ISA (Hedged) in Thornburg Limited Term Income Fund.

On 5 September, revised supplements to the prospectus were noted by the Central Bank for Thornburg Equity Income Builder Fund and Thornburg Strategic Income Fund to add a secondary comparator benchmark index to each Fund.

There have been no other significant events affecting the Company during the financial year ended 30 September 2025.

**NOTE 19 – EVENTS SINCE THE FINANCIAL YEAR END**

Since the financial year end 30 September 2025 the following dividends were declared:

**Thornburg Equity Income Builder Fund**

Share Class	Ex-Dividend Date	Amount US\$

**Thornburg Global Investment plc****STATEMENT OF CHANGES IN PORTFOLIO – THORNBURG INTERNATIONAL EQUITY FUND  
(UNAUDITED)****Financial year ended 30 September 2025**

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales or maturities exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales or maturities must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed. Certain short-term securities purchased for the purposes of uninvested Fund cash management have been excluded from the Statement of Changes in Portfolio.

**Thornburg Global Investment plc****STATEMENT OF CHANGES IN PORTFOLIO – THORNBURG GLOBAL OPPORTUNITIES FUND  
(UNAUDITED)****Financial year ended 30 September 2025**

Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales or maturities exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales or maturities must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed. Certain short-term securities purchased for the purposes of uninvested Fund cash management have been excluded from the Statement of Changes in Portfolio.

Switzerland

**Additional Information for Switzerland**

The Funds are authorised by the Swiss Financial Market Supervisory Authority (FINMA) for distribution respectively offering to qualified and non-qualified investors in Switzerland. Investors in Switzerland can obtain the documents of the Company (each in their latest form as approved by FINMA) such as the Prospectus, the KIDS (respectively, the key information document), the Memorandum and Articles of Association, the semi-annual and annual reports, the list of purchases and sales during the accounting period, and further information free of charge from the Swiss representative. The last share prices can be found on [www.fundinfo.com](http://www.fundinfo.com).

The Company classifies its Funds in accordance with SFDR, and further (a) the manner in which sustainability risks are integrated into investment decisions; and (b) the results of the assessment of the likely impacts of sustainability risks on the returns of the Funds.

The Investment Manager has determined that all Funds are Article 8 financial products pursuant to SFDR. Sustainability risks are integrated into investment decisions with respect to each Fund irrespective of the classification of the Fund under the SFDR.

The Investment Manager believes that consideration of these factors can provide an important input into its investment process, and it therefore takes into account both qualitative and quantitative material sustainability risks as a part of its research process. The Investment Manager's bottom-up investment approach includes proprietary investment research, which is supplemented with public information, third party research, and third party ESG data and reports. The Investment Manager sources sustainability risk, governance information and data from in-house analysis, direct engagement and interaction with companies and other issuers, and from third parties.

While it is expected that each of the Funds may be exposed to a various range of sustainability risks resulting from their individual investment strategy and exposures to specific sectors, issuers or asset classes, it is not anticipated that the sustainability risks to which each Fund are exposed would cause a material impact on their respective returns, given the level of diversification of the Funds and the Investment Manager's active consideration of sustainability risk in its investment process, as described above. However, if significant sustainability risks do arise for each Fund, notwithstanding the efforts of the Investment Manager this could cause an actual or potential material negative impact on the value of an investment. Each of the Article 8 Funds does not have an objective of making sustainable investments, but does promote some characteristics including, among others, environmental or social characteristics, or a combination of those characteristics.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Thornburg International Equity Fund Legal entity identifier: 54930094HYPOCGZQQJ46

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> <b>Yes</b>	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the financial year ended 30 September 2025 (the “**Reference Period**”)<sup>1</sup>, the Fund promoted the environmental characteristic of proactive climate change management and adaptation, defined as investing in companies determined to be well positioned in relation

<sup>1</sup> With effect from 1 April 2025, the Fund was reclassified such that it now promotes environmental and/or social characteristics in accordance with Article 8 of the Sustainable Finance Disclosure Regulation (“**SFDR**”).

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

to their peers in their ability to manage existing climate related risks and seize on climate related opportunities (the “**Environmental Characteristic**”). The Fund met its minimum alignment of at least 51% of its assets with the Environmental Characteristic throughout the Reference Period, ending the Reference Period with 80.1% of the portfolio being aligned with the Environmental Characteristic.

● ***How did the sustainability indicators perform?***

The primary sustainability indicator used to measure the attainment of the Environmental Characteristic was a third party assessment, generated by MSCI, to assist the Investment Manager in its determination as to the relevance and ability of each security to promote the Environmental Characteristic.

Companies scoring in the top half of the scoring range of MSCI’s low carbon transition score (“**Low Carbon Transition Score**”) will be determined to be contributing to the promotion of the Environmental Characteristic. The Low Carbon Transition Score range, from 0-10, is a distribution of individual company assessments that identifies potential leaders and laggards by measuring a company’s exposure to and management of risks and opportunities related to the low carbon transition. The score is based on a multidimensional risks and opportunities assessment, and considers both the primary risks (e.g., changes in market dynamics and regulations) and secondary risks (risks affecting the economy as a whole) that a company faces from the carbon transition. It is finally determined, by MSCI, by a combination of each company’s current risk exposure and its efforts to manage the risks and opportunities presented by the low carbon transition.

Where MSCI data is unavailable or the Investment Manager has reason to believe it to be incorrect or outdated, the Investment Manager may perform direct analysis by reviewing a company’s primary documentation which would clearly corroborate the erroneous or outdated information within the MSCI data set in addition to evidencing a company’s compliance with the Investment Manager’s parameters (i.e., Low Carbon Transition Score) in pursuit of the promoted environmental characteristics. The Investment Manager may engage in enhanced due diligence to assess the ability of a company to contribute to the promotion of the Environmental Characteristic where necessary.

During the Reference Period, the Fund promoted the Environmental Characteristic, with 80.1% of the portfolio being aligned with the Environmental Characteristic at the end of the Reference Period, with a monthly average level of 85.5% and a minimum of 80.1%.

● ***...and compared to previous periods?***

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### **How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund did not consider principal adverse impacts on sustainability factors.

### What were the top investments of this financial product?

The daily average top holdings over the Reference Period are as follows:

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: Financial Year ended 30 September 2025

Largest Investments	Sector	% Assets	Country
Mitsub Ufj Fg Ord	Financials	3.06	Japan
Sony Group Corp Ord	Consumer Discretionary	2.99	Japan
Totalenergies Ord	Energy	2.91	France
Schneider Electric Se Ord	Industrials	2.84	France
Canadian Pacific Kansas City Ord	Industrials	2.84	Canada

### What was the proportion of sustainability-related investments?

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

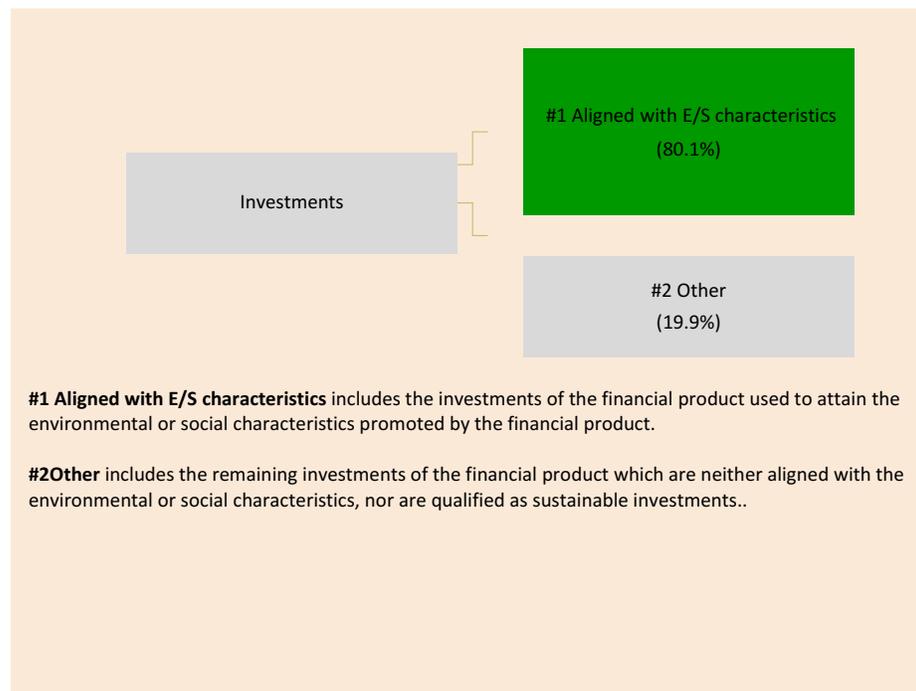

#### ● *What was the asset allocation?*

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

The below averages are based on quarter end investments, utilize the Global Industry Classification Standard (“GICS”) methodology, and represent only those investments that have a GICS designation.

GICS Sector	Average Investment (%)
Communication Services	4.5
Consumer Discretionary	8.6
Consumer Staples	7.7
Energy	4.1
Financials	7.6
Health Care	7.2
Industrials	25.1
Information Technology	10.8

Materials	6.6
Utilities	9.6

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Fund did not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy, accordingly the percentage of EU Taxonomy aligned investments was 0%.

**● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>2</sup>?**

- Yes:
- In fossil gas     In nuclear energy
- No

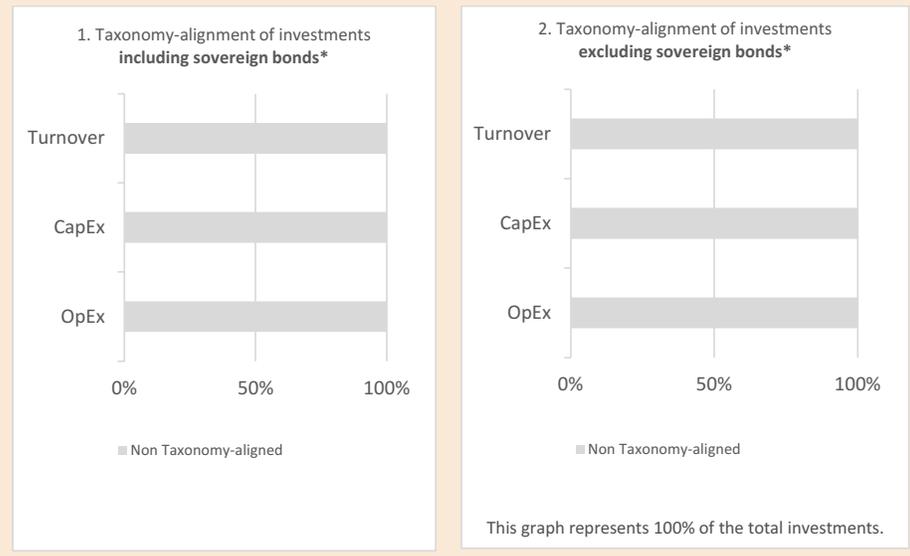

---

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**What was the share of socially sustainable investments?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The ‘Other’ investments, which included cash or other investments made for cash flow management purposes and investments made for investment purposes, adhered to the exclusion criteria outlined in the response under “What actions have been taken to meet the environmental and/or social characteristics during the reference period?” below, that were designed as safeguards for minimum environmental and social standards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the Reference Period, the following actions were taken to meet the Environmental Characteristic promoted by the Fund:

- The Fund did not invest in companies found to have violated principles of the United Nations Global Compact.
- The Fund did not invest in companies determined to be involved in the production of tobacco products, including nicotine-containing products.
- The Fund did not invest in companies involved in the production of controversial weapons including biological and chemical weapons, landmine weapons systems, cluster munitions weapons systems, and others.

**How did this financial product perform compared to the reference benchmark?**

Not applicable. The Fund did not utilize a reference benchmark for the attainment of the Environmental Characteristic promoted by the Fund.

- ***How does the reference benchmark differ from a broad market index?***  
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***  
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***  
Not applicable.
- ***How did this financial product perform compared with the broad market index?***  
Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Thornburg Global Opportunities Fund Legal entity identifier: 5493000W53XG1SVX4Q32

## Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

### Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective: ___%</b> <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective: ___%</b>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics and</b> while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the financial year ended 30 September 2025 (the “**Reference Period**”)<sup>1</sup>, the Fund promoted the environmental characteristic of proactive climate change management and adaptation, defined as investing in companies determined to be well positioned in relation

<sup>1</sup> With effect from 1 April 2025, the Fund was reclassified such that it now promotes environmental and/or social characteristics in accordance with Article 8 of the Sustainable Finance Disclosure Regulation (“**SFDR**”).

to their peers in their ability to manage existing climate related risks and seize on climate related opportunities (the “**Environmental Characteristic**”). The Fund met its minimum alignment of at least 51% of its assets with the Environmental Characteristic throughout the Reference Period, ending the Reference Period with 77.9% of the portfolio being aligned with the Environmental Characteristic.

● ***How did the sustainability indicators perform?***

The primary sustainability indicator used to measure the attainment of the Environmental Characteristic was a third party assessment, generated by MSCI, to assist the Investment Manager in its determination as to the relevance and ability of each security to promote the Environmental Characteristic.

Companies scoring in the top half of the scoring range of MSCI’s low carbon transition score (“**Low Carbon Transition Score**”) will be determined to be contributing to the promotion of the Environmental Characteristic. The Low Carbon Transition Score range, from 0-10, is a distribution of individual company assessments that identifies potential leaders and laggards by measuring a company’s exposure to and management of risks and opportunities related to the low carbon transition. The score is based on a multidimensional risks and opportunities assessment, and considers both the primary risks (e.g., changes in market dynamics and regulations) and secondary risks (risks affecting the economy as a whole) that a company faces from the carbon transition. It is finally determined, by MSCI, by a combination of each company’s current risk exposure and its efforts to manage the risks and opportunities presented by the low carbon transition.

Where MSCI data is unavailable or the Investment Manager has reason to believe it to be incorrect or outdated, the Investment Manager may perform direct analysis by reviewing a company’s primary documentation which would clearly corroborate the erroneous or outdated information within the MSCI data set in addition to evidencing a company’s compliance with the Investment Manager’s parameters (i.e., Low Carbon Transition Score) in pursuit of the promoted environmental characteristics. The Investment Manager may engage in enhanced due diligence to assess the ability of a company to contribute to the promotion of the Environmental Characteristic where necessary.

During the Reference Period, the Fund promoted the Environmental Characteristic, with 77.9% of the portfolio being aligned with the Environmental Characteristic at the end of the Reference Period, with a monthly average level of 77.3% and a minimum of 69.7%.

● ***...and compared to previous periods?***

Not applicable.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

- ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund did not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy, accordingly the percentage of EU Taxonomy aligned investments was 0%.

Taxonomy-aligned activities are expressed as a share of:

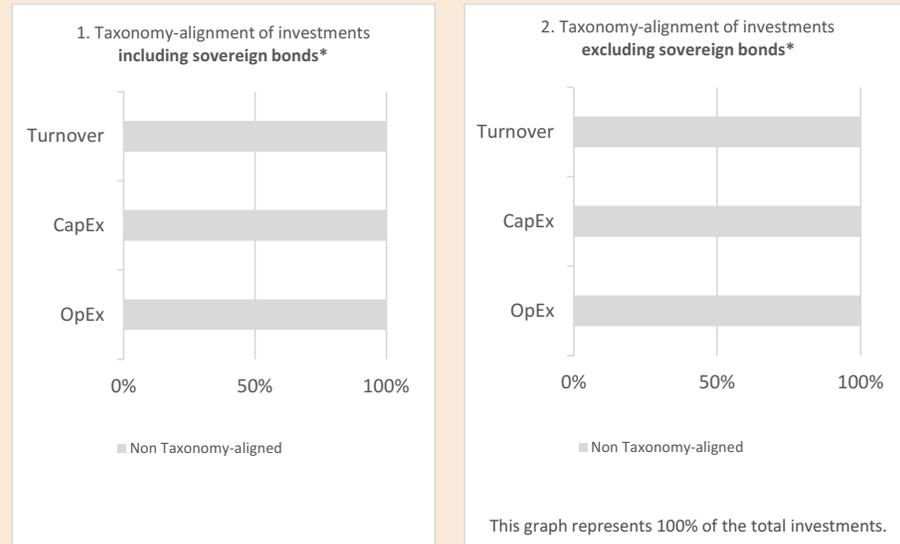

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>2</sup>?

- Yes:
- In fossil gas  In nuclear energy
- No

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**What was the share of socially sustainable investments?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The ‘Other’ investments, which included cash or other investments made for cash flow management purposes and investments made for investment purposes, adhered to the exclusion criteria outlined in the response under “What actions have been taken to meet the environmental and/or social characteristics during the reference period?” below, that were designed as safeguards for minimum environmental and social standards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the Reference Period, the following actions were taken to meet the Environmental Characteristic promoted by the Fund:

- The Fund did not invest in companies found to have violated principles of the United Nations Global Compact.
- The Fund did not invest in companies determined to be involved in the production of tobacco products, including nicotine-containing products.
- The Fund did not invest in companies involved in the production of controversial weapons including biological and chemical weapons, landmine weapons systems, cluster munitions weapons systems, and others.

**How did this financial product perform compared to the reference benchmark?**

Not applicable. The Fund did not utilize a reference benchmark for the attainment of the Environmental Characteristic promoted by the Fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***  
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***  
Not applicable.

- ***How did this financial product perform compared with the reference benchmark?***

Not applicable.

- ***How did this financial product perform compared with the broad market index?***

Not applicable.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Thornburg Equity Income Builder Fund Legal entity identifier: 549300DXHETBDVSLBG66

Environmental and/or social characteristics

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the financial year ended 30 September 2025 (the “**Reference Period**”)<sup>1</sup>, the Fund promoted the environmental characteristic of proactive climate change management and adaptation, defined as investing in companies determined to be well positioned in relation to their peers in their ability to manage existing climate related risks and seize on climate related opportunities (the “**Environmental Characteristic**”). The Fund met its minimum

<sup>1</sup> With effect from 1 April 2025, the Fund was reclassified such that it now promotes environmental and/or social characteristics in accordance with Article 8 of the Sustainable Finance Disclosure Regulation (“**SFDR**”).

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

alignment of at least 51% of its assets with the Environmental Characteristic throughout the Reference Period, ending the Reference Period with 77.6% of the portfolio being aligned with the Environmental Characteristic.

● ***How did the sustainability indicators perform?***

The primary sustainability indicator used to measure the attainment of the Environmental Characteristic was a third party assessment, generated by MSCI, to assist the Investment Manager in its determination as to the relevance and ability of each security to promote the Environmental Characteristic.

Companies scoring in the top half of the scoring range of MSCI's low carbon transition score ("**Low Carbon Transition Score**") will be determined to be contributing to the promotion of the Environmental Characteristic. The Low Carbon Transition Score range, from 0-10, is a distribution of individual company assessments that identifies potential leaders and laggards by measuring a company's exposure to and management of risks and opportunities related to the low carbon transition. The score is based on a multidimensional risks and opportunities assessment, and considers both the primary risks (e.g., changes in market dynamics and regulations) and secondary risks (risks affecting the economy as a whole) that a company faces from the carbon transition. It is finally determined, by MSCI, by a combination of each company's current risk exposure and its efforts to manage the risks and opportunities presented by the low carbon transition.

Where MSCI data is unavailable or the Investment Manager has reason to believe it to be incorrect or outdated, the Investment Manager may perform direct analysis by reviewing a company's primary documentation which would clearly corroborate the erroneous or outdated information within the MSCI data set in addition to evidencing a company's compliance with the Investment Manager's parameters (i.e., Low Carbon Transition Score) in pursuit of the promoted environmental characteristics. The Investment Manager may engage in enhanced due diligence to assess the ability of a company to contribute to the promotion of the Environmental Characteristic where necessary.

During the Reference Period, the Fund promoted the Environmental Characteristic, with 77.6% of the portfolio being aligned with the Environmental Characteristic at the end of the Reference Period, with a monthly average level of 78.4% and a minimum of 71.1%.

● ***...and compared to previous periods?***

Not applicable.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund did not consider principal adverse impacts on sustainability factors.

**What were the top investments of this financial product?**

The daily average top holdings over the Reference Period are as follows:

Largest Investments	Sector	% Assets	Country

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: Financial Year ended 30 September 2025

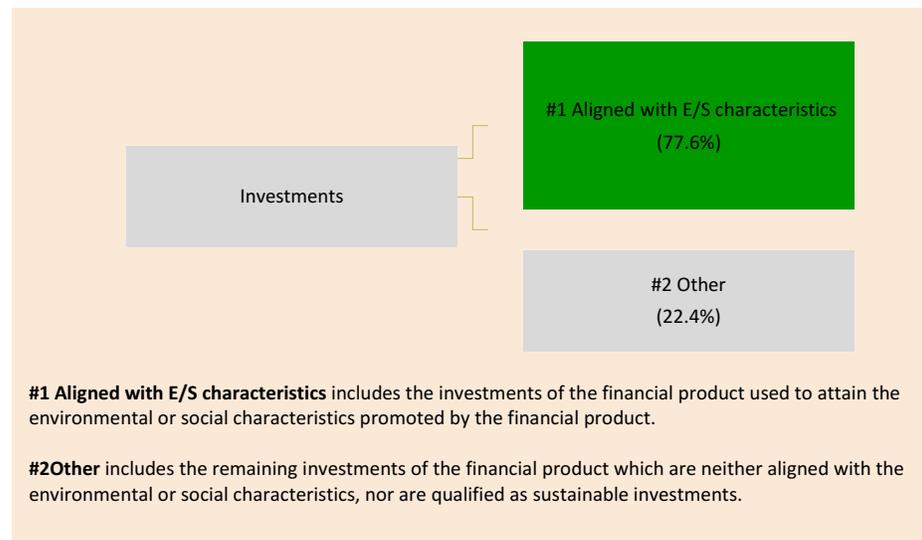

Orange Ord	Communication Services	5.39	France

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

During the financial year ended 30 September 2025 (the “**Reference Period**”)<sup>1</sup>, the Fund promoted the environmental characteristic of carbon emissions management (the

<sup>1</sup> With effect from 1 April 2025, the Fund was reclassified such that it now promotes environmental and/or social characteristics in accordance with Article 8 of the Sustainable Finance Disclosure Regulation (“**SFDR**”).

“**Environmental Characteristic**”) and the social characteristic of favourable access to high quality and transparent capital markets resulting in financial empowerment and lending best practices (the “**Social Characteristic**”). The Fund met its minimum alignment of at least 40% of its assets with the Environmental Characteristic and the Social Characteristic throughout the Reference Period, ending the Reference Period with 46.7% of the portfolio being aligned with the Environmental Characteristic and the Social Characteristic.

● **How did the sustainability indicators perform?**

The primary sustainability indicator used to measure the attainment of the Environmental Characteristic was a third party assessment, generated by MSCI, to assist the Investment Manager in its determination as to the relevance and ability of each security to promote the Environmental Characteristic.

Corporate issuers scoring better than industry peers on an MSCI carbon emissions score factor (“**Carbon Emission Score Factor**”) were determined to be contributing to the promotion of the Environmental Characteristic.

Sovereign issuers that demonstrated a positive three-year trendline of decreasing greenhouse gas (“**GHG**”) emissions in relation to gross domestic product were also deemed as contributing to promoting the Environmental Characteristic.

For non-corporate and non-sovereign issuers, the Investment Manager utilized a pass/fail assessment (“**Pass/Fail Assessment**”) (by way of review of security documentation) to determine the relevance and ability of each security to promote the Social Characteristic.

All fixed income securities (aside from corporate and sovereign issuers) were continuously assessed against the Social Characteristic, based on the inclusion by security issuers, of no less than 10% of HomeReady, HomeReady+, or HomePossible programs (collectively, the “**Home Programs**”) in the securitized pool, or the provision of the opportunity for financing for individuals that were underserved by conventional lending, such as self employed applicants.

Alternatively, where the above Pass/Fail Assessment was deemed by the Investment Manager to be not appropriate, the Investment Manager separately utilized a proprietary assessment to determine whether a security promoted lending best practices.

Where MSCI data was unavailable or the Investment Manager had reason to believe it to be incorrect or outdated, the Investment Manager performed direct analysis by reviewing primary security documentation which corroborated the erroneous or outdated information within the MSCI data set in addition to evidencing an issuer’s compliance with the Investment Manager’s parameters (i.e., Carbon Emission Score Factor, three-year trendline of decreasing GHG, Pass/Fail Assessment etc.) in pursuit of the promoted Environmental Characteristic.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

During the Reference Period, the Fund promoted the Environmental Characteristic and the Social Characteristic with 46.7% of the portfolio being aligned with the Environmental Characteristic and the Social Characteristic at the end of the Reference Period, with a monthly average level of 47.3% and a minimum of 44.1%.

● **...and compared to previous periods?**

Not applicable.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The Fund did not consider principal adverse impacts on sustainability factors.

### What were the top investments of this financial product?

The daily average top holdings over the Reference Period are as follows:

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: Financial Year ended 30 September 2025

Largest investments	Sector	% Assets	Country
Government Of The United States Of America 4.25% 15-nov-2034	Treasury-Domestic	3.13	United States
Government Of The United States Of America 2.75% 15-aug-2032	Treasury-Domestic	2.97	United States
Government Of The United States Of America 4.25% 15-may-2035	Treasury-Domestic	2.78	United States
FhImc 30yr Pool#sd7149 2.500% 01-apr-2052	Mortgage Passthrough	2.39	United States
Government Of The United States Of America 1.75% 15-jan-2034	Treasury-Domestic	1.26	United States

### What was the proportion of sustainability-related investments?

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

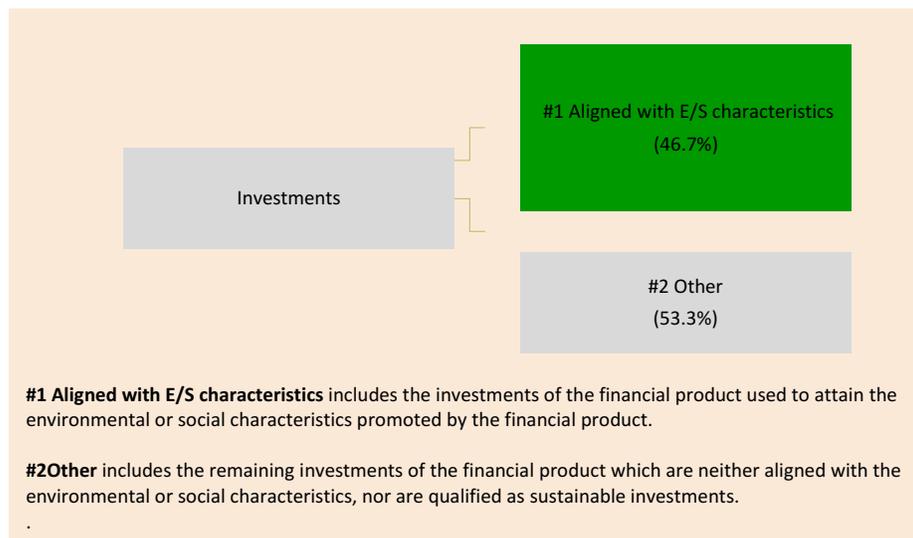

● **What was the asset allocation?**

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

The below averages are based on quarter end investments, utilize the Global Industry Classification Standard (“GICS”) methodology, and represent only those investments that have a GICS designation.

GICS Sector	Average Investment (%)
Communication Services	0.7
Consumer Discretionary	0.5
Consumer Staples	0.9
Energy	1.3
Financials	30.9
Health Care	1.7
Industrials	2.0
Information Technology	3.3
Materials	1.9
Real Estate	1.0
Utilities	3.8

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

Not applicable. The Fund did not commit to making environmentally sustainable investments within the meaning of the EU Taxonomy, accordingly the percentage of EU Taxonomy aligned investments was 0%.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

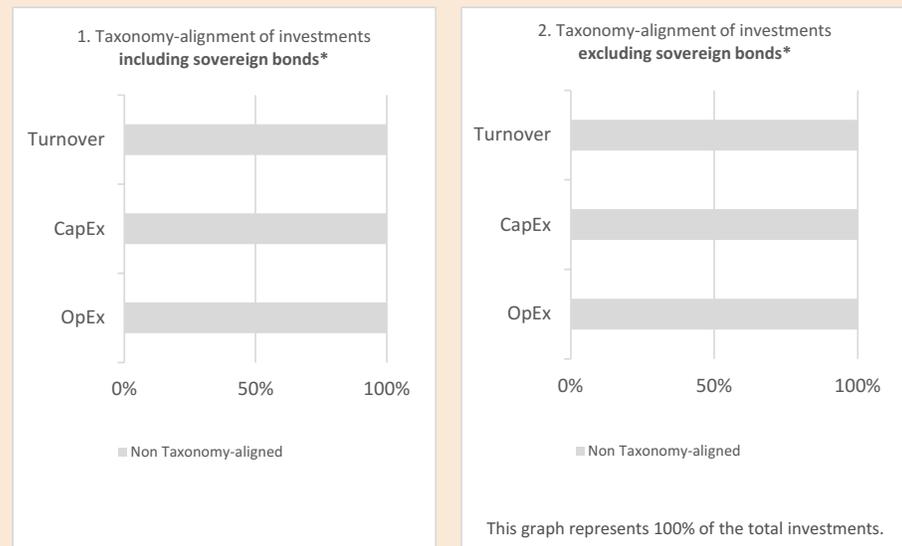

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>2</sup>?**

Yes:

In fossil gas  In nuclear energy

No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**What was the share of socially sustainable investments?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The ‘Other’ investments, which included cash or other investments made for cash flow management purposes and investments made for investment purposes, adhered to the exclusion criteria outlined in the response under “What actions have been taken to meet the environmental and/or social characteristics during the reference period?” below, that were designed as safeguards for minimum environmental and social standards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the Reference Period, the following actions were taken to meet the Environmental and Social Characteristics promoted by the Fund:

- The Fund did not invest in companies found to have violated principles of the United Nations Global Compact.
- The Fund did not invest in companies determined to be involved in the production of tobacco products, including nicotine-containing products.
- The Fund did not invest in companies involved in the production of controversial weapons including biological and chemical weapons, landmine weapons systems, cluster munitions weapons systems, and others.

### **How did this financial product perform compared to the reference benchmark?**

Not applicable. The Fund did not utilize a reference benchmark for the attainment of the Environmental or Social Characteristics promoted by the Fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***  
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***  
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***  
Not applicable.
- ***How did this financial product perform compared with the broad market index?***  
Not applicable.

ANNEX IV

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Thornburg Strategic Income Fund Legal entity identifier: 5493001LE36V15QV8157

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

## Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> Yes	<input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 0% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

During the financial year ended 30 September 2025 (the “**Reference Period**”)<sup>1</sup>, the Fund promoted the environmental characteristic of carbon emissions management (the “**Environmental Characteristic**”) and the social characteristic of favourable access to high quality and transparent capital markets resulting in financial empowerment and lending

<sup>1</sup> With effect from 1 April 2025, the Fund was reclassified such that it now promotes environmental and/or social characteristics in accordance with Article 8 of the Sustainable Finance Disclosure Regulation (“**SFDR**”).

best practices (the “**Social Characteristic**”). The Fund met its minimum alignment of at least 40% of its assets with the Environmental Characteristic and the Social Characteristic throughout the Reference Period, ending the Reference Period with 53.5% of the portfolio being aligned with the Environmental Characteristic and the Social Characteristic.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

The primary sustainability indicator used to measure the attainment of the Environmental Characteristic was a third party assessment, generated by MSCI, to assist the Investment Manager in its determination as to the relevance and ability of each security to promote the Environmental Characteristic.

Corporate issuers scoring better than industry peers on an MSCI carbon emissions score factor (“**Carbon Emission Score Factor**”) were determined to be contributing to the promotion of the Environmental Characteristic.

Sovereign issuers that demonstrated a positive three-year trendline of decreasing greenhouse gas (“**GHG**”) emissions in relation to gross domestic product were also deemed as contributing to promoting the Environmental Characteristic.

For non-corporate and non-sovereign issuers, the Investment Manager utilized a pass/fail assessment (“**Pass/Fail Assessment**”) (by way of review of security documentation) to determine the relevance and ability of each security to promote the Social Characteristic.

All fixed income securities (aside from corporate and sovereign issuers) were continuously assessed against the Social Characteristic, based on the inclusion by security issuers, of no less than 10% of HomeReady, HomeReady+, or HomePossible programs (collectively, the “**Home Programs**”) in the securitized pool, or the provision of the opportunity for financing for individuals that were underserved by conventional lending, such as self employed applicants.

Alternatively, where the above Pass/Fail Assessment was deemed by the Investment Manager to be not appropriate, the Investment Manager separately utilized a proprietary assessment to determine whether a security promoted lending best practices.

Where MSCI data was unavailable or the Investment Manager had reason to believe it to be incorrect or outdated, the Investment Manager performed direct analysis by reviewing primary security documentation which corroborated the erroneous or outdated information within the MSCI data set in addition to evidencing an issuer’s compliance with the Investment Manager’s parameters (i.e., Carbon Emission Score Factor, three-year trendline of decreasing GHG, Pass/Fail Assessment etc.) in pursuit of the promoted Environmental Characteristic.

During the Reference Period, the Fund promoted the Environmental Characteristic and the Social Characteristic, with 53.5% of the portfolio being aligned with the Environmental Characteristic and the Social Characteristic at the end of the Reference Period, with a monthly average level of 54.5% and a minimum of 53.5%.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● **...and compared to previous periods?**

Not applicable.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

— — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The Fund did not consider principal adverse impacts on sustainability factors.

### What were the top investments of this financial product?

The daily average top holdings over the Reference Period are as follows:

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: Financial Year ended 30 September 2025

Largest investments	Sector	% Assets	Country
Government Of The United States Of America 4.25% 15-nov-2034	Treasury-Domestic	3.13	United States
Government Of The United States Of America 2.75% 15-aug-2032	Treasury-Domestic	2.97	United States

As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Not applicable.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**What was the share of socially sustainable investments?**

Not applicable. The Fund did not have a commitment to make sustainable investments as defined in Article 2(17) of the SFDR during the Reference Period.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The ‘Other’ investments, which included cash or other investments made for cash flow management purposes and investments made for investment purposes, adhered to the exclusion criteria outlined in the response under “What actions have been taken to meet the environmental and/or social characteristics during the reference period?” below, that were designed as safeguards for minimum environmental and social standards.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the Reference Period, the following actions were taken to meet the Environmental and Social Characteristics promoted by the Fund:

- The Fund did not invest in companies found to have violated principles of the United Nations Global Compact.
- The Fund did not invest in companies determined to be involved in the production of tobacco products, including nicotine-containing products.
- The Fund did not invest in companies involved in the production of controversial weapons including biological and chemical weapons, landmine weapons systems, cluster munitions weapons systems, and others.

### How did this financial product perform compared to the reference benchmark?

Not applicable. The Fund did not utilize a reference benchmark for the attainment of the Environmental or Social Characteristics promoted by the Fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How does the reference benchmark differ from a broad market index?***  
Not applicable.
- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***  
Not applicable.
- ***How did this financial product perform compared with the reference benchmark?***  
Not applicable.
- ***How did this financial product perform compared with the broad market index?***  
Not applicable.

The Manager has designed and implemented a remuneration policy (the “Policy”) in line with the provisions of S.I. 257 of 2013 European Union (Alternative Investment Fund Managers) Regulations 2013 (the “AIFM Regulations”), S.I. 352 of 2011 European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the “UCITS Regulations”) and of the ESMA Guidelines on sound remuneration policies under the UCITS Directive and AIFMD (the “ESMA Guidelines”). The Policy is designed to ensure that the remuneration of key decision makers is aligned with the management of short and long-term risks, including the oversight and where appropriate the management of sustainability risks in line with the Sustainable Finance Disclosure Regulations.

The Manager’s remuneration policy applies to its identified staff whose professional activities might have a material impact on the Company’s risk profile and so covers senior management, risk takers, control functions and any employees receiving total remuneration that takes them into the same remuneration bracket as senior management and risk takers and whose professional activities have a material impact on the risk profile of the Company. The Manager’s policy is to pay identified staff a fixed component with the potential for identified staff to receive a variable component. It is intended that the fixed component will represent a sufficiently high proportion of the total remuneration of the individual to allow the Manager to operate a fully flexible policy, with the possibility of not paying any variable component. When the Manager pays a variable component as performance related pay certain criteria, as set out in the Manager’s remuneration policy, must be adhered to. The various remuneration components are combined to ensure an appropriate and balanced remuneration package that reflects the relevant staff rank and professional activity as well as best market practice. The Manager’s remuneration policy is consistent with, and promotes, sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile of the funds it manages.

These disclosures are made in respect of the remuneration policies of the Manager. The disclosures are made in accordance with the ESMA Guidelines.

Total remuneration (in EUR) paid to the identified staff of the Manager fully or partly involved in the activities of the Company that have a material impact on the Company’s risk profile during the financial year to 31 December 2024 (the Manager’s financial year):

	<b>EUR</b>
<b>Fixed remuneration</b>	
Senior Management	3,377,918
Other identified staff	-
<b>Variable remuneration</b>	
Senior Management	732,962
Other identified staff	-
<b>Total remuneration paid</b>	<b>4,110,880</b>

No of identified staff – 20

Neither the Manager nor the Company pays any fixed or variable remuneration to identified staff of the Investment Manager.

There have been no material changes made to the Remuneration Policy or the Manager’s remuneration practices and procedures during the financial year.
